

March 24, 2014

Dear Legislators,

My name is Alexandria O'Hara and I am writing in support of H.B. 336, which would prevent the issuing of liquor licenses to establishments within 400 feet of a school. As a Clark Middle School scholar, I want myself and peers to feel safe going to and from school. There is a liquor store located directly across the street from our school and I have to see and deal with the effects of alcoholism each day. People are loitering, sleeping, drinking, and urinating outside of the liquor store. Sometimes, the liquor store customers are confrontational and follow us around. It is especially frightening during the winter months when it is dark outside and students have to walk passed the store, harassed for money, and talk to the inebriates. This is not what students should have to see on their way to and from school each day. We have been promised a safe learning environment and that includes walking to and from school.

Inebriates are safety risks. My friends who attend Clark Middle School have to walk by the liquor store every school day for the whole school year and I do not want her to feel uncomfortable to walk to and from school.

By increasing the distance between the schools and liquor stores, students do not have to experience what Clark students currently see and deal with. Currently, the distance is only 200 feet away and places the problem in our face daily. This problem is unfair to us and no student should have to fear going to school. If the distance is increased, it will lower the safety risk and number of problems caused by alcoholism. I hope you support H.B. 336, because it is best for students- the future of Alaska!

Sincerely,

Alexandria O'Hara

Dear Legislators,

My name is Teresa Xiong and I am writing in support of H.B. 336, which would prevent the issuing of liquor licenses to establishments within 400 feet of a school. As a Clark Middle School scholar, I want myself and peers to feel safe going to and from school. There is a liquor store located directly across the street from our school and I have to see and deal with the effects of alcoholism each day. People are loitering, sleeping, drinking, and urinating outside of the liquor store. Sometimes, the liquor store customers are confrontational and follow us around. It is especially frightening during the winter months when it is dark outside and students have to walk passed the store, harassed for money, and talk to the inebriates. This is not what students should have to see on their way to and from school each day. We have been promised a safe learning environment and that includes walking to and from school.

It affects us because drunk people can actually hurt us on accident just because they are drunk.

By increasing the distance between the schools and liquor stores, students do not have to experience what Clark students currently see and deal with. Currently, the distance is only 200 feet away and places the problem in our face daily. This problem is unfair to us and no student should have to fear going to school. If the distance is increased, it will lower the safety risk and number of problems caused by alcoholism. I hope you support H.B. 336, because it is best for students- the future of Alaska!

Sincerely,

Teresa Xiong

Dear Legislators,

My name is Anna and I am writing in support of H.B. 336, which would prevent the issuing of liquor licenses to establishments within 400 feet of a school. As a Clark Middle School scholar, I want myself and peers to feel safe going to and from school. There is a liquor store located directly across the street from our school and I have to see and deal with the effects of alcoholism each day. People are loitering, sleeping, drinking, and urinating outside of the liquor store. Sometimes, the liquor store customers are confrontational and follow us around. It is especially frightening during the winter months when it is dark outside and students have to walk passed the store, harassed for money, and talk to the inebriates. This is not what students should have to see on their way to and from school each day. We have been promised a safe learning environment and that includes walking to and from school.

Being around a liquor store can be tempting to others. People are in danger when it comes to alcohol and lots of accidents happen.

By increasing the distance between the schools and liquor stores, students do not have to experience what Clark students currently see and deal with. Currently, the distance is only 200 feet away and places the problem in our face daily. This problem is unfair to us and no student should have to fear going to school. If the distance is increased, it will lower the safety risk and number of problems caused by alcoholism. I hope you support H.B. 336, because it is best for students- the future of Alaska!

Dear Legislators,

My name is Thiech Wal and I am writing in support of H.B. 336, which would prevent the issuing of liquor licenses to establishments within 400 feet of a school. As a Clark Middle School scholar, I want myself and peers to feel safe going to and from school. There is a liquor store located directly across the street from our school and I have to see and deal with the effects of alcoholism each day. People are loitering, sleeping, drinking, and urinating outside of the liquor store. Sometimes, the liquor store customers are confrontational and follow us around. It is especially frightening during the winter months when it is dark outside and students have to walk passed the store, harassed for money, and talk to the inebriates. This is not what students should have to see on their way to and from school each day. We have been promised a safe learning environment and that includes walking to and from school.

Walking to school each day is scary for me, because inebriates are always asking for money and get angry when I refuse. Its very difficult walking to school when you constantly getting harrassed by drunks.

By increasing the distance between the schools and liquor stores, students do not have to experience what Clark students currently see and deal with. Currently, the distance is only 200 feet away and places the problem in our face daily. This problem is unfair to us and no student should have to fear going to school. If the distance is increased, it will lower the safety risk and number of problems caused by alcoholism. I hope you support H.B. 336, because it is best for students- the future of Alaska!

Sincerely,

Thiech Wal

Dear Legislators,

My name is Maisuab and I am writing in support of H.B. 336, which would prevent the issuing of liquor licenses to establishments within 400 feet of a school. As a Clark Middle School scholar, I want myself and peers to feel safe going to and from school. There is a liquor store located directly across the street from our school and I have to see and deal with the effects of alcoholism each day. People are loitering, sleeping, drinking, and urinating outside of the liquor store. Sometimes, the liquor store customers are confrontational and follow us around. It is especially frightening during the winter months when it is dark outside and students have to walk passed the store, harassed for money, and talk to the inebriates. This is not what students should have to see on their way to and from school each day. We have been promised a safe learning environment and that includes walking to and from school.

This affects me in many ways. Even though I don't walk home, I've seen things that are related to alcoholism. This causes other students to not have the safety they need.

By increasing the distance between the schools and liquor stores, students do not have to experience what Clark students currently see and deal with. Currently, the distance is only 200 feet away and places the problem in our face daily. This problem is unfair to us and no student should have to fear going to school. If the distance is increased, it will lower the safety risk and number of problems caused by alcoholism. I hope you support H.B. 336, because it is best for students- the future of Alaska!

Dear Legislators,

My name is Jacqueline Renner and I am writing in support of H.B. 336, which would prevent the issuing of liquor licenses to establishments within 400 feet of a school. As a Clark Middle School scholar, I want myself and peers to feel safe going to and from school. There is a liquor store located directly across the street from our school and I have to see and deal with the effects of alcoholism each day. People are loitering, sleeping, drinking, and urinating outside of the liquor store. Sometimes, the liquor store customers are confrontational and follow us around. It is especially frightening during the winter months when it is dark outside and students have to walk passed the store, harassed for money, and talk to the inebriates. This is not what students should have to see on their way to and from school each day. We have been promised a safe learning environment and that includes walking to and from school.

Having two liquor stores in your neighborhood and near our school affects me because I know that one day the inebriates will get very violent and it would try to hurt me. It has affected me because my dad is an inebriate and it kills me to see him in that manner its and I see how my dad gets. I like coming to school to get away from it, not to deal with it even more.

By increasing the distance between the schools and liquor stores, students do not have to experience what Clark students currently see and deal with. Currently, the distance is only 200 feet away and places the problem in our face daily. This problem is unfair to us and no student should have to fear going to school. If the distance is increased, it will lower the safety risk and number of problems caused by alcoholism. I hope you support H.B. 336, because it is best for students- the future of Alaska!

This is not what students should have to see on their way to and from school each day. We have been promised a safe learning environment and that includes walking to and from school.

Having two liquor stores near my school makes me scared to walk back and to school. I walk with my sister everyday to school. We get very freak out when someone who's drunk comes up to us and ask us for money. We don't know what they might do next. Next year my little sister will be walking home alone, I'm afraid she will get hurt by strangers or drunk people. I don't want to let my sister see drunks urinating on walls or them asking for money. We shouldn't have to see this for middle schoolers.

By increasing the distance between the schools and liquor stores, students do not have to experience what Clark students currently see and deal with. Currently, the distance is only 200 feet away and places the problem in our face daily. This problem is unfair to us and no student should have to fear going to school. If the distance is increased, it will lower the safety risk and number of problems caused by alcoholism. I hope you support H.B. 336, because it is best for students- the future of Alaska!

This is not what students should have to see on their way to and from school each day. We have been promised a safe learning environment and that includes walking to and from school.

People who drink alcohol can cause harm to my peers and I. Having alcohol in their system can be strange at times and also cause violence. I don't feel safe because drinking and driving can also occur around our school because we have liquor stores close by our school. We can get hurt if there is a drunk driver around.

By increasing the distance between the schools and liquor stores, students do not have to experience what Clark students currently see and deal with. Currently, the distance is only 200 feet away and places the problem in our face daily. This problem is unfair to us and no student should have to fear going to school. If the distance is increased, it will lower the safety risk and number of problems caused by alcoholism. I hope you support H.B. 336, because it is best for students- the future of Alaska!

My name is Chanelle Stone and I am writing in support of H.B. 336, which would prevent the issuing of liquor licenses to establishments within 400 feet of a school. As a Clark Middle School scholar, I want myself and peers to feel safe going to and from school. There is a liquor store located directly across the street from our school and I have to see and deal with the effects of alcoholism each day. People are loitering, sleeping, drinking, and urinating outside of the liquor store. Sometimes, the liquor store customers are confrontational and follow us around. It is especially frightening during the winter months when it is dark outside and students have to walk passed the store, harassed for money, and talk to the inebriates. This is not what students should have to see on their way to and from school each day. We have been promised a safe learning environment and that includes walking to and from school.

By increasing the distance between the schools and liquor stores, students do not have to experience what Clark students currently see and deal with. Currently, the distance is only 200 feet away and places the problem in our face daily. This problem is unfair to us and no student should have to fear going to school. If the distance is increased, it will lower the safety risk and number of problems caused by alcoholism. I hope you support H.B. 336, because it is best for students- the future of Alaska!

Alcoholism can affect me by tempting me, and other students, to drink when we're older or even now. When students walk past those

stores they can be influenced by the people by those stores.
Strangers could trick them and say its okay to drink alcohol and its not going to do anything.

Sincerely,

Chanelle Stone

Dear Legislators,

My name is Isabelle Hyland and I am writing in support of H.B. 336, which would prevent the issuing of liquor licenses to establishments within 400 feet of a school. As a Clark Middle School scholar, I want myself and peers to feel safe going to and from school. There is a liquor store located directly across the street from our school and I have to see and deal with the effects of alcoholism each day. People are loitering, sleeping, drinking, and urinating outside of the liquor store. Sometimes, the liquor store customers are confrontational and follow us around. It is especially frightening during the winter months when it is dark outside and students have to walk passed the store, harassed for money, and talk to the inebriates. This is not what students should have to see on their way to and from school each day. We have been promised a safe learning environment and that includes walking to and from school.

Alcoholism is a disease. It changes how you act towards anyone. Most inebriates are angry and harass students while they walk to and from school. This is giving younger students, such as sixth graders, give a bad example as to what to do. Having two liquor stores near Clark Middle School is a bad example and is almost telling children to drink later on, or just leaves them scared after being harassed.

By increasing the distance between the schools and liquor stores, students do not have to experience what Clark students currently see and deal with. Currently, the distance is only 200 feet away and places the problem in our face daily. This problem is unfair to us and no student should have to fear going to school. If the distance is increased, it will lower the safety risk and number of problems caused by alcoholism. I hope you support H.B. 336, because it is best for students- the future of Alaska!

My name is Seekia Vang and I am writing in support of H.B. 336, which would prevent the issuing of liquor licenses to establishments within 400 feet of a school. As a Clark Middle School scholar, I want myself and peers to feel safe going to and from school. There is a liquor store located directly across the street from our school and I have to see and deal with the effects of alcoholism each day. People are loitering, sleeping, drinking, and urinating outside of the liquor store. Sometimes, the liquor store customers are confrontational and follow us around. It is especially frightening during the winter months when it is dark outside and students have to walk passed the store, harassed for money, and talk to the inebriates. This is not what students should have to see on their way to and from school each day. We have been promised a safe learning environment and that includes walking to and from school.

It affects me because I have to see inebriates who would ask for money or changes and would sometime argue with the students if they don't give them money. The inebriates would also loiter their bottles around the neighborhood and they would also urinate in front of people that passes by them. I feel unsafe because alcohol makes them angry and they would go around bumping people.

By increasing the distance between the schools and liquor stores, students do not have to experience what Clark students currently see and deal with. Currently, the distance is only 200 feet away and places the problem in our face daily. This problem is unfair to us and no student should have to fear going to school. If the distance is increased, it will lower the safety risk and number of problems caused by alcoholism. I hope you support H.B. 336, because it is best for students- the future of Alaska!

Dear Legislators,

My name is Ropati Malama and I am writing in support of H.B. 336, which would prevent the issuing of liquor licenses to establishments within 400 feet of a school. As a Clark Middle School scholar, I want myself and peers to feel safe going to and from school. There is a liquor store located directly across the street from our school and I have to see and deal with the effects of alcoholism each day. People are loitering, sleeping, drinking, and urinating outside of the liquor store. Sometimes, the liquor store customers are confrontational and follow us around. It is especially frightening during the winter months when it is dark outside and students have to walk passed the store, harassed for money, and talk to the inebriates. This is not what students should have to see on their way to and from school each day. We have been promised a safe learning environment and that includes walking to and from school.

Having 2 liquor stores in my neighborhood and near my school affects me by experiencing bad things like urination and loitering.

By increasing the distance between the schools and liquor stores, students do not have to experience what Clark students currently see and deal with. Currently, the distance is only 200 feet away and places the problem in our face daily. This problem is unfair to us and no student should have to fear going to school. If the distance is increased, it will lower the safety risk and number of problems caused by alcoholism. I hope you support H.B. 336, because it is best for students- the future of Alaska!

Sincerely, Ropati Malama

Dear Legislators,

My name is Amber Nelson and I am writing in support of H.B. 336, which would prevent the issuing of liquor licenses to establishments within 400 feet of a school. As a Clark Middle School scholar, I want myself and peers to feel safe going to and from school. There is a liquor store located directly across the street from our school and I have to see and deal with the effects of alcoholism each day. People are loitering, sleeping, drinking, and urinating outside of the liquor store. Sometimes, the liquor store customers are confrontational and follow us around. It is especially frightening during the winter months when it is dark outside and students have to walk passed the store, harassed for money, and talk to the inebriates. This is not what students should have to see on their way to and from school each day. We have been promised a safe learning environment and that includes walking to and from school.

Alcoholism is a disease and causes people to become angry and use profanity. When I pass by the liquor store, people are urinating in front of us. I am also being harassed by inebriates. I should be able to have a safe neighborhood to walk to and from school. Having two liquor stores nearby causes multiple problems.

By increasing the distance between the schools and liquor stores, students do not have to experience what Clark students currently see and deal with. Currently, the distance is only 200 feet away and places the problem in our face daily. This problem is unfair to us and no student should have to fear going to school. If the distance is increased, it will lower the safety risk and number of problems caused by alcoholism. I hope you support H.B. 336, because it is best for students- the future of Alaska!

Sincerely,

Amber Nelson

Dear Legislators,

My name is Sophia Onemany and I am writing in support of H.B. 336, which would prevent the issuing of liquor licenses to establishments within 400 feet of a school. As a Clark Middle School scholar, I want myself and peers to feel safe going to and from school. There is a liquor store located directly across the street from our school and I have to see and deal with the effects of alcoholism each day. People are loitering, sleeping, drinking, and urinating outside of the liquor store. Sometimes, the liquor store customers are confrontational and follow us around. It is especially frightening during the winter months when it is dark outside and students have to walk passed the store, harassed for money, and talk to the inebriates. This is not what students should have to see on their way to and from school each day. We have been promised a safe learning environment and that includes walking to and from school.

Seeing people inebriate around my neighborhood scares me because sometimes they can't walk straight and I feel like they're gonna bump into me and knock me over or hurt me. I dislike seeing inebriate people around my neighborhood, it makes me feel unsafe.

By increasing the distance between the schools and liquor stores, students do not have to experience what Clark students currently see and deal with. Currently, the distance is only 200 feet away and places the problem in our face daily. This problem is unfair to us and no student should have to fear going to school. If the distance is increased, it will lower the safety risk and number of problems caused by alcoholism. I hope you support H.B. 336, because it is best for students- the future of Alaska!
