FISCAL NOTE ANALYSIS

STATE OF ALASKA
2014 LEGISLATIVE SESSION

BILL NO. HB160

Analysis

HB160 creates a new program within the Department of Commerce, Community and Economic Development for the professional licensing of Athletic Trainers.

The addition of this program requires startup expenses to configure the professional licensing database, develop and implement regulations, purchase supplies, and establish program procedures. Licensing fees for each program are set per AS 08.01.065 so the revenue collected equals the occupation's regulatory costs.

Costs for establishing and maintaining the new license program are based on existing programs of similar size and consist of the following:

Services: One time IT costs of to incorporate the new licensing program into the professional licensing database, \$35.2; legal support services of related to new program implementation, \$11.9; hearing and mediation services beginning in year two, \$4.3; One time costs for advertising public notices of regulations, \$0.3; On going printing and mailing costs, \$0.5.

Commodities: Business supplies, \$0.2.

After consulting the professional standards issued by the Board of Certification, Inc., or another nationally recognized professional association approved by the department, the department shall adopt regulations to protect the public, ensure quality patient care, and regulate the licensing of athletic trainers that include

- (1) minimum standards for licensure as an athletic trainer;
- (2) minimum standards of care for practice as an athletic trainer; and
- (3) continuing education requirements.

In addition to the above, this program will be charged for existing staff time reallocated to this program and for indirect services. Management and administrative support indirect services are allocated annually to all licensing programs. Although increased authorization is not needed for these services, a share of these costs will be considered as part of the program's total costs during the biennial review of licensing fees.
