WRITTEN TESTIMONY

NAME:

Chrystal Schoenrock

REPRESENTING:

Self (4-LANDS BAR - ST CHARLENE member - KPCHARR - SEC)

BILL # or SUBJECT:

209 SMOKING

COMMITTEE:

SSTA

DATE:

4-2-14

I pay my licenses, Permits, Taxes & insurance. I feel my patrons has the final say on wheather I'm smoke free or smoking. In a neighborhood bar & only have so many people that keep me alive in my business. These ~~people~~ people don't know where my business is, never been in my business nor will never be in my business. Again they are taking away more of our rights by ~~telling~~ ^{telling} ~~how~~ us how to live. The Drs talk about Smoking, & second hand smoke - Lets talk about the medicine that has been prescribed only to find out it don't work & only to find out it has caused more problems than not.

I have talked to my bartender who doesn't smoke - she says she knows what is involved & chooses to work there. I have 2 section fans & circulating fans to blow smoke out & I have non-smoking customers as well. But they choose to come in anyway. I feel if Smoke shops & VAP shops ARE exmpt so should bars. I feel there is plenty of smoke free places to go. I am against this bill & WANT to thank those who hold their breath while I smoke.

Thank you

Chrystal Schoenrock
