Representative Olson,

I am an Alaskan voter and I have signed an initiative to have the minimum wage increased in Alaska, like many other Alaskan. Are minimum wage is lowers than many states in the lower 48 and our cost of living is much higher! I am ready to vote on this initiative, but now I understand Legislatures once again are trying to change this process by introducing a bill that would take this off the ballot and allow them to remove the COLA and the requirements that Alaska's minimum wage be at least one dollar over the federal rate.

I am OPPOSED to HB384. I am asking that you stop this bill from going any father.

Representative Olson,

I have recently read HB384 and I am opposed to this initiative because I believe this is an attempt for Legislatures to keep the initiative off the ballot. I am an Alaskan Voter, and I have talked to many Alaskan's and I have signed the Minimum wage initiative.

I am asking that you not allow HB384 move to go forward let us be allowed to Vote on this initiative let us be the ones to decide on the minimum wage. Don't change the process or play games with elections.

Sincerely
William Mun

Representative Olson,

I am an Alaskan Voter, and I have talked to many Alaskan's and I have collected thousands of signatures for the Minimum wage initiative. I have recently read HB384 and I am opposed to this initiate because I believe this is an attempt for Legislatures to keep the initiative off the ballot. This looks a lot like what happened in 2002. Don't allow HB384 continue to go forward, let the people, like myself, be allowed to Vote on this initiative. Let us be the ones to decide.

Representative Olson,

I am a registered voter and one of your many Constituents that have signed the minimum wage initiative to increase the current pitiful \$7.25 an hour to a more acceptable level of salary with a cost of living allowance attached with it. I am skeptical of allowing the legislature to make promises of passing a similar Bill, HB 384 for the greater good of the citizens of Alaska and then in the next legislative session removing the COLA from the Bill as was done in the 2003 legislative session. For this reason I ask that you do not support HB 384 and let the voting people have our say.

Sincerely,

Representative Olson,

I am a registered voter here in the State of Alaska and I am also one of the 40,000 plus voters that signed the minimum wage initiative to have it placed on the upcoming November election ballot to have the minimum wage increased from the current rate of \$7.25 to an increased rate with the cost of living allowance attached. I signed the petition to have the initiative placed on the November ballot and I would like to exercise my right to vote on this initiative. I ask that you do not support HB384.

Sincerely,
