

My name is Agnes Moran, since I'm a locally elected official I need to make the standard disclosure that the views expressed here are my own.

I support SJR9 and encourage you to pass it and allow all of the citizens of Alaska to voice their opinions on School Choice. Access to quality education impacts all areas of society and all Alaskans deserve the chance to determine what direction they want their educational system to take. It is time for the debate on School Choice to move out of the chambers of Juneau and into the villages and communities so the individuals directly impacted can participate in the discussion.

The Alaska Constitution is a living document that belongs to all Alaskans. All Alaskans deserve the opportunity to weigh in on this critical issue. Please pass SJR9, so we can all have a voice in our children's education.
