FISCAL NOTE ANALYSIS #1

STATE OF ALASKA
2013 LEGISLATIVE SESSION

BILL NO. SB 26

Analysis

This bill proposes to make changes to statutes that are intended to continue progress made to the State of Alaska's permitting processes to ensure projects are permitted in a more timely, predictable and efficient manner while safeguarding the environment.

These proposed changes are not anticipated to have a fiscal impact on the department or the State. The bill will either create efficiencies or prevent inefficiencies, which will allow the Division of Mining, Land, and Water to re-allocate staff time to other permits and authorizations thus helping to reduce the backlog.

Regulations will be amended to help implement certain new or substantially modified sections of the bill. The Department of Natural Resources will also amend regulations in order to conform to language changes. The Department would first focus on the regulations needed to implement the new or substantially modified sections. The department anticipates that it would take two years until all regulatory changes that might result from passage of this bill are adopted.
