FISCAL NOTE ANALYSIS

STATE OF ALASKA
2013 LEGISLATIVE SESSION

BILL NO. HB173

Analysis

This bill would limit funding of abortions for Medicaid eligible individuals to medically necessary abortions and abortions that are the result of rape or incest. The bill provides a statutory definition of medical necessity. Currently, Alaska Medicaid only pays for medically necessary abortions and abortions that are the result of rape or incest. However, the determination of medical necessity is made by the physician requesting authorization of the abortion based on professional judgment, not a specific definition.

It is possible that use of specific criteria for medical necessity could reduce the number of abortions qualified for state funding. However, the Department lacks the data needed to estimate how many abortions would fail to meet the bill's definition of medical necessity. Therefore, we cannot determine the impact on expenditures.

Medicaid payment regulations would need to be amended to apply the specific definition of medical necessity as a condition of payment for abortion services.
