FISCAL NOTE ANALYSIS

STATE OF ALASKA 2013 LEGISLATIVE SESSION

BILL	NO	. SB74
	110	. 0017

Analysis

Senate Bill 74 creates the University Building Fund (UBF) as a special account in the general fund. It is modeled after the Alaska Public Building Fund, which has been operated by the Department of Administration since 2000.								
In addition to legislative appropriations, the UBF may contain funds deposited by a campus on behalf of its facilities as well as funds from donors; capital balances when new facilities are completed; and money collected as rent from the departments or programs that occupy space in university buildings.								
Any administrative costs associated with managing the UBF will be covered through existing University resources.
