8 Arctic region, and conversely, the Arctic region is affected by the activities and prosperity in
9 the other regions of the state;

10 (3) residents of the state, having lived and worked in the Arctic region for
11 decades, have developed expert knowledge regarding a full range of activities and issues
12 involving the region;

13 (4) residents of the state recognize the risks that come with a changing climate
14 and emerging threats to ecosystems, as well as increased maritime activity, but are optimistic
15 that the skillful application of expertise, coupled with circumpolar cooperation, will usher in a

new era of economic and resource development that will improve the quality of life for residents of the state;

(5) the continuing development of the state's natural resources in an environmentally and socially responsible manner is essential to the development of the state's economy and to the well-being of the residents of the state;

(6) for thousands of years, indigenous peoples have made up the majority of the inhabitants of the Arctic region, and their physical and spiritual well-being depends on protecting the bountiful lands, rivers, and seas of the Arctic region;

(7) it is essential for the state and federal government to strengthen their collaboration on Arctic issues, including coordination when creating policies and implementation plans related to the Arctic, as both continue to engage in international circumpolar activity;

(8) the state should maintain an official body authorized to further develop strategies and policies for the Arctic region that respond to the priorities and critical needs of residents of the state.

(b) It is the intent of the legislature that this declaration of Arctic policy

(1) be implemented through statutes and regulations;

(2) not conflict with, subjugate, or duplicate other existing state policy;

(3) guide future policy derived from the implementation strategy developed by the Alaska Arctic Policy Commission;

(4) clearly communicate the interests of residents of the state to the federal government, the governments of other nations, and other international bodies developing policies related to the Arctic.
