

Authority Granted in SB 138

- AGDC has primary responsibility for developing an Alaska LNG project on the state's behalf [AS 31.25.005 (1)]
- AGDC may acquire a direct ownership interest in any component of an Alaska LNG project [AS 31.25.080 (a)(23)]
- AGDC may enter into contracts related to treating, transporting, liquefying or marketing gas - in consultation with DNR & DOR [AS 31.25.080 (a)(24)]
- AGDC shall assist DNR & DOR to [AS 31.24.005 (2) & (3)].
 - Maximize the value of the state's gas resources
 - Provide economic benefits in the state
 - Provide revenue to the state

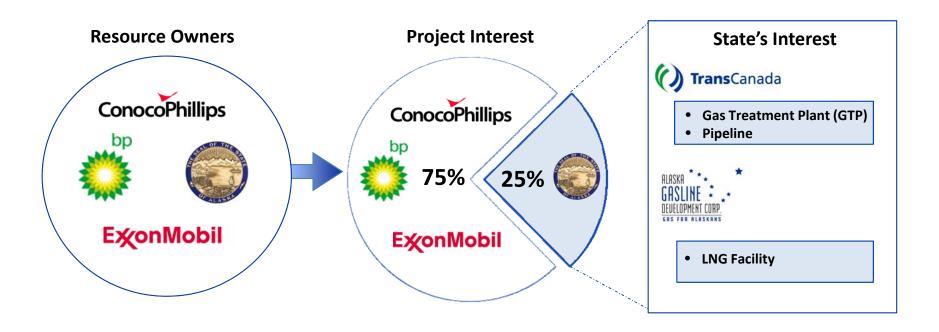

AGDC's Role in Alaska LNG

- Signatory to the Joint Venture Agreement governing the Alaska LNG project
- Hold the state's 25% equity interest in the LNG facility (downstream component) of the integrated project
- Member of the Sponsor Group, Management Committee (ManCom) and the Project Steering Committee (PSC)
- Participate in integrated project decisions
- Participate in commercial negotiations related to marketing, expansion, third-party access and domestic gas supply
- Plan and develop off-takes for in-state gas deliveries

Alaska LNG Project Participation

- AGDC holds State's interest in downstream: LNG Facility
- TransCanada holds State's interest in mid-stream: Pipeline & GTP

Governance Related Issues

- Equity Alignment: State's share of gas in the project (25%) is not equal to its current equity in the integrated project:
 - State, through AGDC, holds 25% in the downstream (LNG plant)
 - TC holds 25% in the midstream (pipeline & GTP)
 - State's resulting equity in the integrated project is ~ 12.5%
- Voting Rights: State doesn't have full voting participation in all project decisions:
 - State, through AGDC, votes on downstream issues
 - TC votes on mid-stream issues
 - If TC exits, AGDC would have full voting rights on each project component and in all integrated project decisions

Project Governance

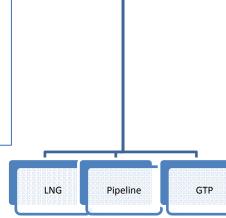

- Seven project sponsors
- High level project review
- Advance project enabling agreements, fiscal and commercial issues
- DNR & DOR
 Included

- Joint Venture
 Agreement partners
 (CoVs)
- Equity investors in the project
- Overall oversight and control of project development

- Guidance and technical oversight of the Project Management Team (PMT)
- Advises ManCom on technical issues

Project

Management

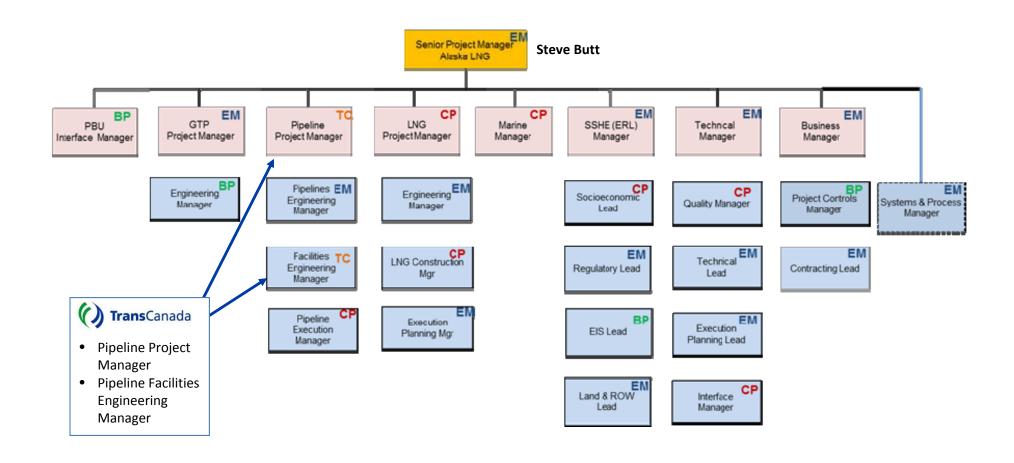

Team (PMT)

- Integrated project team
- Day-to-day execution of pre-FEED
- Develop work scope, schedule and budget
- Engineering, design, regulatory, and environmental permitting

Project Management Team (PMT)

TransCanada currently has two individuals in the leadership structure of the PMT

Project Management Team (PMT)

- Project Management Team (PMT) created by Alaska LNG co-venture partners (CoVs) to lead day-to-day project development
- PMT is led by ExxonMobil's Steve Butt and staffed with other CoV employees who have been seconded to the project
- CoVs nominate employees based on skills and experience
 - PMT evaluates nominees and Management Committee approves
 - Positions are filled using a "best player plays" approach
 - Secondee's salary and expenses covered by project
- AGDC is active at all governance levels Sponsors, ManCom and PSC
- AGDC does not currently have employees seconded to PMT
- PMT hires engineering and specialist contractors to advance design efforts
 - Vast majority of project work is done by contractors under the supervision of the PMT

Project Management Team (PMT)

Staffing Principles

- Leverage existing company strengths ensure "right person, right job" or "best player plays"
- Joint Venture Agreement (JVA) parties can nominate employees for any position
- Ensure all parties are represented at leadership levels
- Locate teams for maximum effectiveness; co-located with major contractors where appropriate
- Appointments to leadership roles require unanimous approval of the parties

Project Secondees	EM	СР	TC	ВР	Total
Leadership Team Senior Project Manager and direct reports	5	2	1	1	9
Key Positions	10	4	1	3	18
Other Positions	73	20	10	5	108
Total	88	26	12	9	135

TransCanada's Role Alaska LNG

- Hold the state's 25% interest in the project's mid-stream:
 pipeline and gas treatment plant (GTP)
- Fund pre-FEED cash calls associated with the state's midstream interest
- 12 secondees, primarily pipeline Subject Matter Experts (SME), in the Project Management Team
 - Leadership team, Pipeline Project Manager (1 of 9)
 - Key role, Pipeline Facilities Engineering Manager (1 of 18)
 - Environmental, Regulatory, & Land (ERL) (1 of 32)
 - Gas Treatment Plant sub-project (1 of 17)
 - Pipeline sub-project (8 of 36)

TransCanada's Role Alaska LNG

- TransCanada (TC) is not expected to build the pipeline, that will be managed by the PMT
- If TC exits the project, the PMT will seek nominations for the vacated positions
- TC has offered to allow its PMT employees to remain during a transition period
- All CoVs, including AGDC, can nominate employees to fill those positions
- AGDC has individuals qualified to nominate for Pipeline and GTP openings

AGDC Technical Team - Skills

AGDC's technical staff:

- Senior credentialed professionals with industry and mega-project backgrounds
- Arctic pipeline and facilities design, construction, and operations experience
- Alaska-specific design and construction experience
- Major capital project management expertise
- Working knowledge of technical and regulatory assets owned by AGDC

AGDC Technical Team - Results

AGDC completed development of the Alaska Stand Alone Pipeline (ASAP) Project:

- Completed Pre-FEED and FEED for North Slope gas treatment facility, 733-mile mainline, and 30-mile Fairbanks lateral pipeline
- Completed Class 3 cost estimate and project execution plan
- Delivered on time and under budget
- Core technical team still engaged on an interim basis pending state policy decisions

AGDC Ability to Assume TC's Role

- Currently holds state's interest in LNG facility a complex and expensive component in the integrated project
- Already assumed TC's role in coordinating the FERC NEPA process
- Engaging on mid-stream technical issues currently
- Technical staff available to fill PMT positions as necessary:
 - Subject Matter Experts (SME) based in Alaska
 - Key roles in prior Alaska pipeline projects, including TAPS
 - Dedicated professionals committed to SOA interests

Alaska LNG Fund Status

AKLNG Fund Capitalization (SB 138)	\$ (000)	
AREIVET und Capitalization (35 130)		
Original Fiscal Note Allocations		
AGDC: AKLNG Project Participation FY14 & FY15	\$67,265	
Dept. of Revenue: Project Financing Options Report	\$2,500	
Dept. of Transportation: Infrastructure Studies	\$70	
Total Fund Cap	\$69,835	
Spending by Category Thru FY16		
RSA to Department of Revenue	(\$2,500)	
RSA to Department of Transportation	(\$70)	
AKLNG Project Cash Calls	(\$51,382)	
AGDC Corporate Operating Component	(\$4,396)	
AGDC External Contractual Support (SMEs)	(\$5,235)	
Additional Contractual Work for TC Pickup	(\$5,900)	
Reimbursement Due AGDC for AKLNG Project Work	\$2,750	
Estimated Outflow Thru FY16	(\$66,733)	
Estimated Available Start of FY17 Budget Year	\$3,101	

^{**} Available to apply towards AGDC's FY17 Alaska LNG operating budget component

AGDC Special Session Appropriations

Capital Appropriation (\$144,045.0)

- \$68,445.0 Reimburse TransCanada and "buy-out" their mid-stream interest
- \$75,600.0 Fund state's full 25% share of remaining pre-FEED

Receipt Authority (\$5,000.0): Statutory Designated Program Receipts (SDPR)

 Allow AGDC to be reimbursed for Alaska LNG related field work conducted on behalf of the project

AGDC Special Session Appropriations

TC Buvout W/New Pre-\$46.9 - Cash Calls thru 2015 **Expectation** \$21.5 – Development & Carrying Costs FEED Scope & \$68.4 – Total Reimbursement & Buyout Before 2016 **Budget** WP&B Change Cash Calls 2016 to Pre-FEED TC Buyout \$ 68.4 Conclusion Pick-Up Remaining Cash Calls 29.6 29.6 \$31 – Go Forward Midstream (Pipe/GTP) Allowance for Mid-Stream Scope Changes \$ (8.8 31.0 38.4 60.6 30% contingency on \$29.6 pick-up 106.8 129.0 \$15 - Go Forward Downstream (LNG) Allowance for DownStream Scope Changes \$ (15.0)\$ 106.8 144.0

Pre-FEED Scope & Budget Changes

Pre-FEED scope and schedule will increase by \$182 million to \$694 million:

- State's total share is \$173 million -- \$66 million
 liquefaction plant, \$107 million mid-stream (GTP and pipe)
- Advancing work into pre-FEED is important to have the best information available to complete internal review and make FEED decision
- Project is maturing through the stage-gate development process
- Moving some activities from FEED to Pre-FEED to facilitate better design and decision making

Pre-FEED Scope & Budget Changes

Scope changes are designed to improve project economics, permitting outcomes and the quality of information available for FEED evaluation:

- Component level optimization to lower capital costs and improve project economics (\$57 million)
- Increase scope of geotechnical and geohazard work at GTP and LNG sites (\$29 million)
- Increase regulatory and pre-bid work on FEED contracting;
 complete weather delayed off-shore field work (\$66 million)
- Bring 48" pipe deliverables up to 42" level of development (\$30 million)

Alaska Stand Alone Pipeline (ASAP) Project Status

ASAP Project Status

Alaska Stand Alone Pipeline (ASAP)

- State's back-up plan in the event Alaska LNG doesn't progress
- AGDC concluded FEED in Dec 2014; Construction ready –
 Class 3 estimate of \$10 billion (+/- 20%)
- Commercial activities tariff filing and open season on hold pending outcome of AKLNG project
- Progressing U.S. Army Corps Supplemental EIS process to secure federal permits and right-of-way

In-State Pipeline Fund Status

In-State Natural Gas Pipeline Fund Capitalization (HB 4)		
Original Appropriation	\$355.0	
Original Appropriation	, 3333.U	
Spending by Major Category To Date		
AGDC: Corporate Operating & ASAP Project Development	(\$135.0)	
Legislative Reappropriation to Public Education Fund (2015 Session)	(\$157.0)	
DNR: North Slope Gas Commercialization Component FY16	(\$9.0)	
Estimated Outflow as of Oct 2015	(\$301.0)	
Current Balance	\$54.0	
Maintain ASAP Project Viability & Readiness	(\$12.0)	
AGDC: Contractual & FY16 Operating Component	(\$10.0)	
Estimated Available Start of FY17 Budget Cycle	\$32.0
