FISCAL NOTE ANALYSIS

STATE OF ALASKA 2015 LEGISLATIVE SESSION

Analysis

The legislation provides the opportunity for municipalities and businesses to voluntarily participate in a Municipal Assessed Clean Energy finance program. The program would allow municipalities to create a structure where businesses could finance energy efficiency upgrades to existing commercial properties (including the conversion to natural gas) through traditional lending, or a municipal sources and repay the loan through an assessment charge on the individual annual property tax assessment.
There is no fiscal impact to the Alaska Energy Authority, or the state of Alaska, with the passage of this proposed legislation.
