

**HOUSE JOINT RESOLUTION NO. 9**

IN THE LEGISLATURE OF THE STATE OF ALASKA

TWENTY-NINTH LEGISLATURE - FIRST SESSION

BY REPRESENTATIVES TALERICO, Colver, Lynn, Millett, Chenault, Saddler

Introduced: 1/23/15

Referred: Resources

**A RESOLUTION**

1 **Urging the United States Congress to pass legislation to open the coastal plain of the**  
2 **Arctic National Wildlife Refuge to oil and gas development; urging the United States**  
3 **Department of the Interior to recognize the private property rights of owners of land in**  
4 **and adjacent to the Arctic National Wildlife Refuge; relating to oil and gas exploration,**  
5 **development, production, and royalties; and relating to renewable and alternative**  
6 **energy technologies.**

7 **BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF ALASKA:**

8 **WHEREAS**, in 16 U.S.C. 3142 (sec. 1002 of the Alaska National Interest Lands  
9 Conservation Act), the United States Congress reserved the right to permit further oil and gas  
10 exploration, development, and production within the coastal plain of the Arctic National  
11 Wildlife Refuge; and

12 **WHEREAS** the oil industry, the state, and the United States Department of the  
13 Interior consider the coastal plain to have the highest potential for discovery of very large oil  
14 and gas accumulations on the continent of North America, estimated to be as much as

1 10,000,000,000 barrels of recoverable oil; and

2 **WHEREAS** the "1002 study area" is part of the coastal plain located within the North  
3 Slope Borough, and many of the residents of the North Slope Borough, who are  
4 predominantly Inupiat, are supportive of development in the "1002 study area"; and

5 **WHEREAS** oil and gas exploration and development of the coastal plain of the refuge  
6 and adjacent land could result in major discoveries that would reduce our nation's dependency  
7 on oil produced by hostile foreign nations, help balance the nation's trade deficit, and  
8 significantly increase the nation's security; and

9 **WHEREAS** the state's and the nation's future energy independence would be  
10 enhanced with additional natural gas production from the North Slope of Alaska, including  
11 what are expected to be significant gas reserves in the Arctic National Wildlife Refuge, and  
12 the development of those reserves would enhance the economic viability of the proposed  
13 liquefied natural gas project; and

14 **WHEREAS** development of oil at Prudhoe Bay, Kuparuk, Endicott, Lisburne, and  
15 Milne Point has resulted in thousands of jobs throughout the United States, and projected job  
16 creation as a result of coastal plain oil development will have a positive effect in all 50 states;  
17 and

18 **WHEREAS** North Slope production is declining; and

19 **WHEREAS** the Trans Alaska Pipeline System, a national asset that would cost  
20 billions of dollars to replace, would have its useful physical life extended for a substantial  
21 period if the additional reserves of recoverable oil from the coastal plain were produced; and

22 **WHEREAS** the Trans Alaska Pipeline System is currently being extended to leases at  
23 Point Thomson, an area bordering the Arctic National Wildlife Refuge, and oil produced in  
24 the Arctic National Wildlife Refuge would require only the additional construction of a  
25 pipeline to Point Thomson to deliver oil to market; and

26 **WHEREAS**, while new oil field developments on the North Slope of Alaska may  
27 temporarily slow the decline in production, only allowing access to the state's coastal plain  
28 fields would enable the production volume of Alaska oil to increase by up to 700,000 barrels a  
29 day; and

30 **WHEREAS** opening the coastal plain of the Arctic National Wildlife Refuge now  
31 allows sufficient time for planning environmental safeguards, development, and national

1 security review; and

2 **WHEREAS** the 1,500,000-acre coastal plain of the refuge makes up less than eight  
3 percent of the 19,000,000-acre refuge, and development of the oil and gas reserves in the  
4 refuge's coastal plain would affect a limited area as defined by the United States Congress;  
5 and

6 **WHEREAS** 8,900,000 of the 19,000,000 acres of the refuge have already been set  
7 aside as wilderness; and

8 **WHEREAS** the oil industry has shown at Prudhoe Bay, as well as at other locations  
9 along the Arctic coastal plain, that it is capable of conducting oil and gas activity without  
10 adversely affecting the environment or wildlife populations; and

11 **WHEREAS** the state will continue to strive to ensure the ongoing health and  
12 productivity of the Porcupine and Central Arctic caribou herds and the protection of land,  
13 water, and wildlife resources during the exploration and development of the coastal plain of  
14 the Arctic National Wildlife Refuge; and

15 **WHEREAS** the oil and gas industry has developed directional drilling technology that  
16 will allow horizontal drilling in a responsible manner by minimizing the development  
17 footprint within the Arctic National Wildlife Refuge, and that directional drilling technology  
18 may be capable of drilling from outside of the boundaries of the 1002 study area; and

19 **WHEREAS** the oil industry is using innovative technology and environmental  
20 practices in new field developments, and those techniques are directly applicable to operating  
21 on the coastal plain and would enhance environmental protection beyond traditionally high  
22 standards; and

23 **WHEREAS** the state recognizes that the economic prosperity of the state is dependent  
24 on available, reliable, and affordable energy; and

25 **WHEREAS** the state promotes the development of renewable and alternative energy  
26 resources and created the Alaska Energy Authority to assist the state in advancing new energy  
27 projects and technology; and

28 **WHEREAS** the Alaska State Legislature encourages the use of revenue from  
29 development in the Arctic National Wildlife Refuge for the development of renewable and  
30 alternative energy resources in the state;

31 **BE IT RESOLVED** that the Alaska State Legislature urges that oil and gas

1 exploration, development, and production activity be conducted in a manner that protects the  
2 environment and the naturally occurring population levels of the Porcupine caribou herd on  
3 which the Inupiat, Gwich'in, and other local residents depend, that uses directional drilling  
4 and other advances in technology to minimize the development footprint in the 1002 study  
5 area, and that uses the state's work force to the maximum extent possible; and be it

6 **FURTHER RESOLVED** that the Alaska State Legislature urges the United States  
7 Congress to pass legislation opening the 1002 study area for oil and gas development while  
8 continuing to work on measures for increasing the development and use of renewable and  
9 alternative energy technologies; and be it

10 **FURTHER RESOLVED** that the Alaska State Legislature urges the United States  
11 Department of the Interior to recognize and respect the rights of Native landowners in and  
12 adjacent to the Arctic National Wildlife Refuge 1002 study area, including the rights of the  
13 Arctic Slope Regional Corporation and the Kaktovik Inupiat Corporation to develop their land  
14 and resource entitlements received under the Alaska Native Claims Settlement Act and other  
15 agreements; and be it

16 **FURTHER RESOLVED** that the Alaska State Legislature opposes any unilateral  
17 reduction in royalty revenue from exploration and development of the coastal plain of the  
18 Arctic National Wildlife Refuge and any attempt to coerce the state into accepting less than  
19 the 90 percent of the oil, gas, and mineral royalties from the federal land in the state that was  
20 promised to the state at statehood.

21 **COPIES** of this resolution shall be sent to the Honorable Barack Obama, President of  
22 the United States; the Honorable Joseph R. Biden, Jr., Vice-President of the United States and  
23 President of the U.S. Senate; the Honorable Sally Jewell, United States Secretary of the  
24 Interior; the Honorable John Boehner, Speaker of the U.S. House of Representatives; the  
25 Honorable Nancy Pelosi, Minority Leader of the U.S. House of Representatives; the  
26 Honorable Mitch McConnell, Majority Leader of the U.S. Senate; the Honorable Harry Reid,  
27 Minority Leader of the U.S. Senate; the Honorable Lisa Murkowski, Chair of the Energy and  
28 Natural Resources Committee of the U.S. Senate; the Honorable Dan Sullivan, U.S. Senator,  
29 and the Honorable Don Young, U.S. Representative, members of the Alaska delegation in  
30 Congress; and all other members of the 114th United States Congress.
