

MONTHLY DUES

Monthly dues are required while you are in Teamster-represented employment. To remain a member in good standing, dues must be paid on or before the last business day of the current month. The rate is calculated as follows:

- If you earn over \$11.00 per hour, your rate is 2.5 times your hourly earnings rate, rounded to the nearest whole dollar.
- If you earn \$11.00 per hour or less, your rate is 2.0 times your hourly earnings rate and rounded to the nearest dollar.
- If you work more than 24 hours in a month, you owe at the full "working" dues rate.
- If you work 24 hours or less in the month, you owe dues at the \$21 "non-working" dues rate (or your normal dues rate, whichever is lower).
