2015 Performance Snapshot

Treasury Division

- All non-retirement funds managed by the Treasury Division met or exceeded the benchmark returns. This includes the General Fund, Other Non-segregated Investments (GeFONSI), and Constitutional Budget Reserve Funds.
 - Issued \$355.3 million of general obligation and state supported subject to appropriation bonds through three bond issues, to refinance existing obligations and provide project funding. The refinancing provided \$16 million in current dollar savings for the State's general fund.
- ## Tax Division
- Successfully rolled out Oil and Gas Production and Property Tax into our Tax Revenue Management System; final tax types to be rolled out by March 2016.
 - The Tax Division collected \$1,202,468,815 in FY15 from all activities.

2015 Performance Snapshot

Permanent Fund Dividend Division

- In Dividend Year 2015, 93.3% of total applications received were completed (determined eligible, denied, invalidated, or withdrawn) by September 15th.
- PFD implemented new warrant Positive Payee standards, that mandate enhanced security features. These result in the reduction of fraudulent and counterfeit checks, as well as improved payment tracking. This has already decreased the number of reported counterfeit checks, while significantly improving our response rate due to quicker notification from banking institutions.

Child Support Services Division

- In October of 2015, CSSD successfully moved custodial parents from paper checks to debit cards or electronic deposits for child support payments. This greatly mitigates the possibility of fraud, provides clients with quick access to payments, and has significantly reduced costs for check-stock, printing expenses, and mailing fees. Outgoing child support checks have decreased from approximately 9,500 checks to 1,900 with an anticipated total reduction of 91,200 checks annually.
- CSSD provides information daily to customers seeking verification of payments for the purposes of home loans, child care and other public services. The division now provides direct access to the information they require, saving staff time for CSSD and less effort for clients. Prior to providing access, CSSD received around 50 verification requests daily. As a result, manual requests are currently down by more than half.

2015 Performance Snapshot

Alaska Retirement Management Board (ARMB)

- The Public Employee Retirement System (PERS) and Teacher Retirement System (TRS) defined benefit retirement plans earned annual returns of 3.30% in 2015 placing their earnings above the median of all public funds in the Callan Database. Both plans exceeded benchmark returns.

Alaska Municipal Bond Bank Authority (AMBBAA)

- The Bond Bank issued \$175.6 million in bonds, which resulted in \$199.9 million in loans to communities for new projects or refinance. The Bond Bank used these funds for 29 municipal refinance loan agreements, and new projects in 19 communities to fund schools, harbors, municipal utilities (solid waste, electric, and water), health care facilities, and other municipal projects.

Unclaimed Property

- Transferred \$8.0 million into the state general fund for FY2015 collections in excess of refunds. Since the inception of the program in 1986, a total of \$104 million has been transferred to the state general fund from the Unclaimed Property Trust account.

Criminal Investigations Unit

- During 2015, CIU received 795 PFD Fraud Tips resulting in 20 cases sent to prosecution. These cases had an admin recovery value of \$600,000 and a criminal recovery of over \$108,000. CIU also criminally charged 27 non-custodial parents for failing to pay their child support. Additionally, CIU investigations resulted in the collection of \$317,000 in otherwise uncollectable Child Support debt.
