FISCAL NOTE ANALYSIS

STATE OF ALASKA
2015 LEGISLATIVE SESSION

BILL NO. HB12

Analysis

HB12 exempts bona fide non-profit organizations and their loan originators from state licensing and adds the option for a depository institution that is already exempt to register with the department so they can sponsor a state licensed mortgage loan originator who works under exclusive contract for them.

The exemption of the bona fide non-profit organizations is not anticipated to have a measurable impact on the revenue collected. The reduction in license numbers will be very small and offset by the steady increase in license numbers the program has seen over the past three years.

The registration of depository institutions and the related reduction in single person addition of exemptions is not anticipated to materially reduce revenue or increase expenses. There are currently 13 State Farm Agents who would be affected by the registration of a depository institution (State Farm Bank).

Regulations will be amended to include the exempt registration fee, requirement of branch registration for the exempt registered depository, details of how a non-profit organization proves they meet the qualifications as a bona fide non-profit, renewal procedures for the exempt registration and the reapproval process for the bona fide non-profit.

The Division of Banking and Securities does not anticipate fiscal impact from this legislation.
