A BILL

FOR AN ACT ENTITLED

"An Act declaring the Arctic policy of the state."

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

* **Section 1.** The uncodified law of the State of Alaska is amended by adding a new section to read:

LEGISLATIVE FINDINGS AND INTENT. (a) The legislature finds that

(1) the state is what makes the United States an Arctic nation;

(2) the entirety of the state is affected by the activities and prosperity in the Arctic region, and conversely, the Arctic region is affected by the activities and prosperity in the other regions of the state;

(3) residents of the state, having lived and worked in the Arctic region for decades, have developed expert knowledge regarding a full range of activities and issues involving the region;

(4) residents of the state recognize the risks that come with a changing climate
and emerging threats to ecosystems, as well as increased maritime activity, but are optimistic
that the skillful application of expertise, coupled with circumpolar cooperation, will usher in a

WORK DRAFT

1 new era of economic and resource development that will improve the quality of life for 2 residents of the state; 3 (5) the development of the state's natural resources in an environmentally and 4 socially responsible manner is essential to the development of the state's economy and to the 5 well-being of the residents of the state; (6) for thousands of years, indigenous peoples have made up the majority of 6 7 the inhabitants of the Arctic region, and their physical and spiritual well-being depends on 8 protecting the bountiful lands, rivers, and seas of the Arctic region; 9 (7) it is essential for the state and federal government to strengthen their 10 collaboration on Arctic issues, including coordination when creating policies and implementation plans related to the Arctic, as both continue to engage in international 11 circumpolar activity; 12 13 (8) the state should maintain an official body authorized to further develop strategies and policies for the Arctic region that respond to the priorities and critical needs of 14 15 residents of the state. 16 (b) It is the intent of the legislature that this declaration of Arctic policy 17 (1) be implemented through statutes and regulations; 18 (2) not conflict with, subjugate, or duplicate other existing state policy; 19 (3) guide future policy derived from the implementation strategy developed by 20 the Alaska Arctic Policy Commission; 21 (4) clearly communicate the interests of residents of the state to the federal 22 government, the governments of other nations, and other international bodies developing 23 policies related to the Arctic. 24 * Sec. 2. AS 44.99 is amended by adding a new section to read: Sec. 44.99.105. Declaration of state Arctic policy. (a) It is the policy of the 25 26 state, as it relates to the Arctic, to 27 (1)uphold the state's commitment to economically vibrant communities sustained by development activities consistent with the state's 28 29 responsibility for a healthy environment, including efforts to 30 (A) ensure that Arctic residents and communities benefit from 31 economic and resource development activities in the region;

L

1 (B) improve the efficiency, predictability, and stability of 2 permitting and regulatory processes; 3 (C) attract investment through the establishment of a positive 4 investment climate and the development of strategic infrastructure; 5 (D) sustain current, and develop new, approaches for 6 responding to a changing climate, and adapt to the challenges of coastal 7 erosion, permafrost melt, and ocean acidification; 8 (E) encourage industrial and technological innovation in the 9 private and academic sectors that focuses on emerging opportunities and 10 challenges; 11 (F) maintain a strong, sustainable fisheries industry and 12 increase fisheries research and monitoring; 13 (2) collaborate with all levels of government, tribes, industry, and 14 nongovernmental organizations to achieve transparent and inclusive Arctic decision- 15 making, including efforts to 16 (A) strengthen and expand cross-border relationships and 17 international cooperation, especially bilateral engagements with Canada and 18 Russia; 19 (C) pursue opportunities to participate meaningfully as a 10		WORK DRAFT	WORK DRAFT	29-LS0013\P
3 (C) attract investment through the establishment of a positive 4 investment climate and the development of strategic infrastructure; 5 (D) sustain current, and develop new, approaches for 6 responding to a changing climate, and adapt to the challenges of coastal 7 erosion, permafrost melt, and ocean acidification; 8 (E) encourage industrial and technological innovation in the 9 private and academic sectors that focuses on emerging opportunities and 10 challenges; 11 (F) maintain a strong, sustainable fisheries industry and 12 increase fisheries research and monitoring; 13 (2) collaborate with all levels of government, tribes, industry, and 14 nongovernmental organizations to achieve transparent and inclusive Arctic decision- 15 making, including efforts to 16 (A) strengthen and expand cross-border relationships and 17 international cooperation, especially bilateral engagements with Canada and 18 Russia; 19 (B) sustain and enhance state participate meaningfully as a 21 (C) pursue opportunities to participate meaningfully as a 22 partner in the development of federal and international Arctic policies,	1		(B) improve the efficiency, predictability,	and stability of
4 investment climate and the development of strategic infrastructure; 5 (D) sustain current, and develop new, approaches for 6 responding to a changing climate, and adapt to the challenges of coastal 7 erosion, permafrost melt, and ocean acidification; 8 (E) encourage industrial and technological innovation in the 9 private and academic sectors that focuses on emerging opportunities and 10 challenges; 11 (F) maintain a strong, sustainable fisheries industry and 12 increase fisheries research and monitoring; 13 (2) collaborate with all levels of government, tribes, industry, and 14 nongovernmental organizations to achieve transparent and inclusive Arctic decision- 15 making, including efforts to 16 (A) strengthen and expand cross-border relationships and 17 international cooperation, especially bilateral engagements with Canada and 18 Russia; 19 (B) sustain and enhance state participation in the Arctic 20 Council; 21 (C) pursue opportunities to participate meaningfully as a 22 partner in the development of federal and international Arctic policies, thereby 23	2	permitting a	nd regulatory processes;	
5 (D) sustain current, and develop new, approaches for 6 responding to a changing climate, and adapt to the challenges of coastal 7 erosion, permafrost melt, and ocean acidification; 8 (E) encourage industrial and technological innovation in the 9 private and academic sectors that focuses on emerging opportunities and 10 challenges; 11 (F) maintain a strong, sustainable fisheries industry and 12 increase fisheries research and monitoring; 13 (2) collaborate with all levels of government, tribes, industry, and 14 nongovernmental organizations to achieve transparent and inclusive Arctic decision- 15 making, including efforts to 16 (A) strengthen and expand cross-border relationships and 17 international cooperation, especially bilateral engagements with Canada and 18 Russia; 19 (B) sustain and enhance state participation in the Arctic 20 Council; 21 (C) pursue opportunities to participate meaningfully as a 22 partner in the development of federal and international Arctic policies, thereby 23 incorporating state and local knowledge and expertise; 24 (D) st	3		(C) attract investment through the establish	nent of a positive
6 responding to a changing climate, and adapt to the challenges of coastal 7 erosion, permafrost melt, and ocean acidification; 8 (E) encourage industrial and technological innovation in the 9 private and academic sectors that focuses on emerging opportunities and 10 challenges; 11 (F) maintain a strong, sustainable fisheries industry and 12 increase fisheries research and monitoring; 13 (2) collaborate with all levels of government, tribes, industry, and 14 nongovernmental organizations to achieve transparent and inclusive Arctic decision- 15 making, including efforts to 16 (A) strengthen and expand cross-border relationships and 17 international cooperation, especially bilateral engagements with Canada and 18 Russia; 19 (B) sustain and enhance state participate meaningfully as a 21 (C) pursue opportunities to participate meaningfully as a 22 partner in the development of federal and international Arctic policies, thereby 23 incorporating state and local knowledge and expertise; 24 (D) strengthen support for and collaboration with Arctic 25 Council Permanent Participant organizations that include ind	4	investment of	climate and the development of strategic infrastru	cture;
7 erosion, permafrost melt, and ocean acidification; 8 (E) encourage industrial and technological innovation in the 9 private and academic sectors that focuses on emerging opportunities and 10 challenges; 11 (F) maintain a strong, sustainable fisheries industry and 12 increase fisheries research and monitoring; 13 (2) collaborate with all levels of government, tribes, industry, and 14 nongovernmental organizations to achieve transparent and inclusive Arctic decision- 15 making, including efforts to 16 (A) strengthen and expand cross-border relationships and 17 international cooperation, especially bilateral engagements with Canada and 18 Russia; 19 (B) sustain and enhance state participation in the Arctic 20 Council; 21 (C) pursue opportunities to participate meaningfully as a 22 partner in the development of federal and international Arctic policies, thereby 23 incorporating state and local knowledge and expertise; 24 (D) strengthen support for and collaboration with Arctic 25 Council Permanent Participant organizations that include indigenous peoples 26 <	5		(D) sustain current, and develop new,	approaches for
8 (E) encourage industrial and technological innovation in the 9 private and academic sectors that focuses on emerging opportunities and 10 challenges; 11 (F) maintain a strong, sustainable fisheries industry and 12 increase fisheries research and monitoring; 13 (2) collaborate with all levels of government, tribes, industry, and 14 nongovernmental organizations to achieve transparent and inclusive Arctic decision- 15 making, including efforts to 16 (A) strengthen and expand cross-border relationships and 17 international cooperation, especially bilateral engagements with Canada and 18 Russia; 19 (B) sustain and enhance state participation in the Arctic 20 Council; 21 (C) pursue opportunities to participate meaningfully as a 22 partner in the development of federal and international Arctic policies, thereby 23 incorporating state and local knowledge and expertise; 24 (D) strengthen support for and collaboration with Arctic 25 Council Permanent Participant organizations that include indigenous peoples 26 of the state; 27 (E) reiterate the state's long-ti	6	responding	to a changing climate, and adapt to the chal	lenges of coastal
9 private and academic sectors that focuses on emerging opportunities and challenges; 11 (F) maintain a strong, sustainable fisheries industry and increase fisheries research and monitoring; 13 (2) collaborate with all levels of government, tribes, industry, and nongovernmental organizations to achieve transparent and inclusive Arctic decision-making, including efforts to 16 (A) strengthen and expand cross-border relationships and international cooperation, especially bilateral engagements with Canada and Russia; 19 (B) sustain and enhance state participation in the Arctic Council; 21 (C) pursue opportunities to participate meaningfully as a partner in the development of federal and international Arctic policies, thereby incorporating state and local knowledge and expertise; 24 (D) strengthen support for and collaboration with Arctic Council Permanent Participant organizations that include indigenous peoples of the state; 25 (E) reiterate the state's long-time support for ratification of the Law of the Sea Treaty; 29 (3) enhance the security of the Arctic region of the state and, thereby, the security of the entire state, including efforts to	7	erosion, per	mafrost melt, and ocean acidification;	
10 challenges; 11 (F) maintain a strong, sustainable fisheries industry and 12 increase fisheries research and monitoring; 13 (2) collaborate with all levels of government, tribes, industry, and 14 nongovernmental organizations to achieve transparent and inclusive Arctic decision- 15 making, including efforts to 16 (A) strengthen and expand cross-border relationships and 17 international cooperation, especially bilateral engagements with Canada and 18 Russia; 19 (B) sustain and enhance state participation in the Arctic 20 Council; 21 (C) pursue opportunities to participate meaningfully as a 22 partner in the development of federal and international Arctic policies, thereby 23 incorporating state and local knowledge and expertise; 24 (D) strengthen support for and collaboration with Arctic 25 council Permanent Participant organizations that include indigenous peoples 26 of the state; 27 (E) reiterate the state's long-time support for ratification of the 28 Law of the Sea Treaty; 29 (3) enhance the security of the Arctic region of the state and, thereby,<	8		(E) encourage industrial and technological	innovation in the
11(F) maintain a strong, sustainable fisheries industry and12increase fisheries research and monitoring;13(2) collaborate with all levels of government, tribes, industry, and14nongovernmental organizations to achieve transparent and inclusive Arctic decision-15making, including efforts to16(A) strengthen and expand cross-border relationships and17international cooperation, especially bilateral engagements with Canada and18Russia;19(B) sustain and enhance state participation in the Arctic20Council;21(C) pursue opportunities to participate meaningfully as a22partner in the development of federal and international Arctic policies, thereby23incorporating state and local knowledge and expertise;24(D) strengthen support for and collaboration with Arctic25Council Permanent Participant organizations that include indigenous peoples26of the state;27(E) reiterate the state's long-time support for ratification of the28Law of the Sea Treaty;29(3) enhance the security of the Arctic region of the state and, thereby,30the security of the entire state, including efforts to	9	private and	academic sectors that focuses on emerging	opportunities and
12increase fisheries research and monitoring;13(2) collaborate with all levels of government, tribes, industry, and14nongovernmental organizations to achieve transparent and inclusive Arctic decision-15making, including efforts to16(A) strengthen and expand cross-border relationships and17international cooperation, especially bilateral engagements with Canada and18Russia;19(B) sustain and enhance state participation in the Arctic20Council;21(C) pursue opportunities to participate meaningfully as a22partner in the development of federal and international Arctic policies, thereby23incorporating state and local knowledge and expertise;24(D) strengthen support for and collaboration with Arctic25Council Permanent Participant organizations that include indigenous peoples26of the state;27(E) reiterate the state's long-time support for ratification of the28Law of the Sea Treaty;29(3) enhance the security of the Arctic region of the state and, thereby,30the security of the entire state, including efforts to	10	challenges;

1		oil spill prevention and response, and search and rescue capabilities in the	
2		region;	
3		(B) provide safe, secure, and reliable maritime transportation in	
4		the areas of the state adjacent to the Arctic;	
5		(C) sustain current, and develop new, community, response,	
6	and resource-related infrastructure;		
7		(D) coordinate with the federal government for an increase in	
8		United States Coast Guard presence, national defense obligations, and levels of	
9	public and private sector support; and		
10		(4) value and strengthen the resilience of communities and respect and	
11	integra	ate the culture and knowledge of Arctic peoples, including efforts to	
12		(A) recognize Arctic indigenous peoples' cultures and unique	
13		relationship to the environment, including traditional reliance on a subsistence	
14		way of life for food security, which provides a spiritual connection to the land	
15		and the sea;	
16		(B) build capacity to conduct science and research and advance	
17		innovation and technology in part by providing support to the University of	
18		Alaska for Arctic research consistent with state priorities;	
19		(C) employ integrated, strategic planning that considers	
20		scientific, local, and traditional knowledge;	
21		(D) safeguard the fish, wildlife, and environment of the Arctic	
22		for the benefit of residents of the state;	
23		(E) encourage more effective integration of local and	
24		traditional knowledge into conventional science, research, and resource	
25		management decision making.	
26		(b) It is important to the state, as it relates to the Arctic, to support the strategic	
27	recom	mendations of the implementation plan developed by the Alaska Arctic Policy	
28	Comn	nission and to encourage consideration of recommendations developed by the	
29	Alaska	a Arctic Policy Commission. Priority lines of effort for the Arctic policy of the	
30	state i	nclude	
31		(1) promoting economic and resource development;	

(2) addressing the infrastructure and response capacity gap in order to support the Arctic region;

(3) supporting healthy communities; and

(4) supporting existing and fostering new science and research that aligns with state priorities for the Arctic.

(c) In this section, "Arctic" means the area of the state north of the Arctic Circle, north and west of the boundary formed by the Porcupine, Yukon, and Kuskokwim Rivers, all contiguous seas, including the Arctic Ocean, and the Beaufort, Bering, and Chukchi Seas, and the Aleutian Chain, except that, for the purpose of international Arctic policy, "Arctic" means the entirety of the state.
