

February 23, 2015

Governor Walker;

I would like to be considered as a candidate to represent the marijuana industry on the soon to be formed Marijuana Control Board.

As a spokesman for both the Campaign to Regulate Marijuana like Alcohol and for the Coalition for Responsible Cannabis Legislation I have had the opportunity to advocate for this new industry in numerous forums and media.

Throughout the campaign and after the election I have always attempted to be a balanced, reasonable voice for the industry and to remain respectful of the legitimate concerns of both advocates and opponents of this initiative.

For my own part, I would hope to one day start my own marijuana business. That will depend, of course, on how the rules develop not only at the statewide-level but at the Federal and local levels as well. I sincerely believe that if we do this properly we will eventually see a gradual reduction in black-market marijuana and a shift toward a responsible, regulated marijuana industry.

Through my background in Architecture I have developed the ability to work in small teams on complex problems and on short schedules. I believe that we can meet the 9-month schedule articulated in the ballot measure and I respectfully ask to be considered for this board.

Sincerely,

**Bruce K. Schulte**
