RE: Request for consideration for re-appointment to the AELS Board

Dear Ms. Cederberg,

I would like to express my interest in continuing my position on the AELS Board filling one of the two Professional Land Surveyor seats. I have enjoyed the last few years working with the other board members toward our common goal of protecting the public, and have great respect for the committed professionals that serve on the board. This is not a board of members that simply show up and maintain the status quo. These are individuals that take the board's mission very seriously, and work tirelessly not only to uphold the statutes and regulations governing working professionals, but also to educate and inform so that everyone understands how and why the laws were developed. Their dedication and enthusiasm is infectious, and I have appreciated the opportunity to learn and grow while working alongside the members of this board.

It has been an honor to be a member of the AELS Board, and I hope that you will consider allowing me to serve another term on the board.

Thank you for considering my request, and please let me know if I can provide more information.

Sincerely,

Dave Hale, PLS

LS No. 10395
