Subject: KDLL APBC funding
Date: Tuesday, March 31, 2015 9:19:17 AM

I was very concerned to hear that you are considering not funding KDLL. The State's APBC grant has been a regular, base source of funding for the station, as for other stations in the state. Although I am a regular listener and member of KDLL, my primary reason for strongly urging you to continue this funding is for our public safety and emergency response capabilities. As a long time Alaskan who was here during the 1964 earthquake, I know how important it is to have public communications in times of natural disasters. I urge you to continue funding for public radio stations.

Sincerely, Pamela Joslin
