To current Members I will keep it short. I saw the cavalcade of crying, whining, soul search and begging today as to keep this and that because the freeloading created by the previous Alaska Legislatures. This Gavel session reminded me of Eddie Murphy in Movie Trading Places as a scam man begging from hardworking citizens. This coming budget is going to making me pay for the bad practices of the Boom Bust Legislation.

You turned the Oil Companies into the Freeloaders and the soft working citizens into Beggars. I hope your proud of your selves.

I want to see massive cuts to all the programs. I didn't want them to begin with back then. I don't think the give away empathy programs will work in the future.

Having me pay for the stupidity twice just flat out is wrong!

I pay a lot of Federal taxes and now your telling me to pay again for these giveaway feel good State handouts. I quote "NUTS" to that!

No New Taxes! You pandered to and reduced the Oil Companies you do the same for Me.....

Outside in the Weather, hard working, tax paying, conservative voting citizen.

40 year Alaskan
