**Subject:** Education Funding---Make me wrong.  
**Date:** Wednesday, April 01, 2015 7:16:08 PM

---

I was not going to write this as I question if it would make any difference. My wife talked me into doing so indicating that we (the electorate do have an influence). So, I will give it a shot.

When funding for education, and especially in the early years, please consider that our children are our long term investment for Alaska. There, that is short and to the point.

So, I listened to my wife. Please make me wrong about thinking our input will be ignored. My wife will be happy, that makes me happy and you will know you have done the right thing.
