**Subject:** Support funding for Public RAdio  
**Date:** Tuesday, March 31, 2015 9:23:18 PM

---

I strongly urge you to continue funding for public radio. Public Broadcasting in Alaska serves such a public service and emergency function in our state, especially in rural communities. Commercial Stations do not have the local knowledge to function efficiently in an emergency outside of Anchorage. Conversely, public radio is locally run, trusted and attuned to the needs of the diverse localities that they serve. This important link for safety must be preserved.
