Subject: SB210 Senior Exemption Change

To the Senate Finance committee:

Please, please, please do not allow the language in SB210 that gives communities the option to have a senior exemption pass out of committee. There are many frothing at the mouth out there to rip that exemption from Seniors. Those on a fixed income already have a hard enough time in Alaska, and it got even worse last year since Minimum Wage is just a scheme to redistribute money from those on a fixed income to those in the workforce.

Please protect our seniors from those who would just grow government instead of right-sizing to fit their community.

Thanks,
