First I'd like to thank you all for the great work you are doing this session!

You have all heard pros and cons to this bill, but it all comes down to protecting Alaskan workers; part of that, is protecting them from second hand vapor. With e-cigs and other vapor product being unregulated we just don't know what Alaskan workers are being exposed to. .

I ask you all to keep e-cigs and vape shops in this bill as they are in SB 1.

Please checkout the attachedgroupon ad

Thank you.
