Subject: FW: SB88

I support and encourage you to pass SB88 for a choice for State employees in retirement plans. I am a retired state employee drawing a defined pension. I was hit with a 2/3s reduction in Social Security because I had a retirement income. I manage but it is not a gravy train. I believe that the present plan for Tier 4 employees reduces the pool of candidates for many important jobs. Please push for passage of SB88.

Thank You,

Virginia L. Damron
