

Sanitation Funding Through the DEC Municipal Grants and Loans Program and the DEC Village Safe Water Program

SFY 2001 - SFY 2012

The Municipal Grants and Loans (MG&L) program offers low interest loans and matching grants to the State's larger incorporated municipalities. MG&L grants require a local match between 15% and 40%, depending on the population of the community. The Village Safe Water (VSW) program offers 100% grants to second class cities and smaller communities throughout the state.

SFY	Sanitation Funding Through MMG			Sanitation Funding Through VSW		
	STATE	FEDERAL	TOTAL	STATE	FEDERAL	TOTAL

Notes:

- Figures include funding for studies, design and construction projects.
- Figures do not include one time federal ARRA funding.
- Sources of federal funds include the Environmental Protection Agency and the Department of Agriculture/Rural Development.
- Funding from Federal sources that do not come through DEC or do not require a State match (such as Indian Health Service funding) are excluded.
- State revolving loan capitalization funds are excluded.
- MMG funding information sources: (1) DEC CIP Lists and (2) the State Capital Budget.
- VSW funding information sources: (1) State grant applications for federal funds and (2) federal appropriation bills.
- Though a State match is required, federal funding through USDA may be made directly to communities and ANTHC.
