Subject: Alaska: Support Campus Carry legislation, Senate Bill 174

Dear Representative Wes Keller:

As a fellow resident of Alaska, I respectfully urge your support of Senate Bill 174. This important legislation would allow students, faculty and guests to own, possess, carry, transport or store a firearm on areas of the University of Alaska campus where not prohibited by law. A state-funded institution should not be allowed to impose rules more strict than state law, especially rules to limit the right to self-defense. Individuals should not be prevented from exercising their right to self-defense simply because they choose to seek a college education.

Again, as a resident of Alaska, I urge you to support Senate Bill 174.

Sincerely,
Stephen Lee

Subject: SB 174, relating to weapons on campus

House Education Committee
House Judiciary Committee

I am urging you to reject SB 174 for the reasons outlined by the Board of Regents and because, as a University of Alaska Fairbanks employee, I will feel decidedly less safe if guns are allowed on campus. I have worked for the University of Alaska for 35 years and have never felt unsafe and have never felt the necessity to bring my guns to campus. Young people learning how to live and study together are not the correct people to defend the campus from assault. We have professional law enforcement able to do so. Please do not make my work environment unsafe.

Sincerely,

Brendan P. Kelly

To: Rep. David Talerico; Rep. Harriet Drummond; Rep. Jim Colver; Rep. Jonathan Kreiss-Tomkins; Rep. Liz Vazquez; Rep. Paul Seaton; Rep. Wes Keller
Subject: To House Education Committee, Support of SB 174

Mr Chairman and members of the education committee. My name is Mike Coons from Palmer and I'm speaking for myself as a Life and Heritage member of the NRA.

SB 174 has had some pretty contentious public hearings. The anti Second Amendment crowd has used fear as one of their attacks, fear of the citizens of Alaska whom choose to carry a firearm. The facility and students from foreign countries, here being protected by our Constitution, are making comments that if they only had known that guns would be on campus they would not have come to UA. Alaskan facility members have said they will quit and leave if this passes. I fully applaud Senator Kelly, whom on the floor in reaction to those comments said: Don't let the screen door hit you on the on the way out!

The main reason for this testimony though is because of the tactic and I do believe outright lies of facility and students that testified they own guns, they hunt, they target practice but they oppose SB 174! I have been on the fore front of the 2nd Amendment issue and dealing with those whom oppose our liberties for many years. This tactic is right out of the Brady anti-gun handbook! Because owning a firearm and the 2nd Amendment have zero to do with the "right" of hunting or target practice or collecting, it is all about the right to protect ourselves against tyranny, be that a government gone amok or criminals whom are putting us in serious bodily harm or in fear of our lives!

So for those whom use this tactic, please, by all means call them out.

This tactic is also used by the likes of Rosie O'Donnel in that she is an elitist and she needs the protection, armed security, and that denial of our, everyday citizens rights, is because we are just peasants. I wonder if the same holds true with those testifying here that because they are facility of an prestigious University that only they have the knowledge, the training and because of their station, the need for a firearm.

I am sure that SB 174 will pass and I just ask that it passes out of this committee today so that it can be passed on the floor prior to session ending

Subject: Alaska: Support Campus Carry legislation, Senate Bill 174

Dear Representative Wes Keller:

As a fellow resident of Alaska, I respectfully urge your support of Senate Bill 174. This important legislation would allow students, faculty and guests to own, possess, carry, transport or store a firearm on areas of the University of Alaska campus where not prohibited by law. A state-funded institution should not be allowed to impose rules more strict than state law, especially rules to limit the right to self-defense. Individuals should not be prevented from exercising their right to self-defense simply because they choose to seek a college education.

Again, as a resident of Alaska, I urge you to support Senate Bill 174.

Sincerely,
Cindy Rau

Subject: Alaska: Support Campus Carry legislation, Senate Bill 174

Dear Representative Wes Keller:

As a fellow resident of Alaska, I respectfully urge your support of Senate Bill 174. This important legislation would allow students, faculty and guests to own, possess, carry, transport or store a firearm on areas of the University of Alaska campus where not prohibited by law. A state-funded institution should not be allowed to impose rules more strict than state law, especially rules to limit the right to self-defense. Individuals should not be prevented from exercising their right to self-defense simply because they choose to seek a college education.

Again, as a resident of Alaska, I urge you to support Senate Bill 174.

Sincerely,
Walter Jackson
PO Box 402
Haines, AK 99827-0402

To: Rep. Wes Keller
Subject: In Support of SB 174

Honorable Representative Wes Keller

I am writing you today in support of SB 174; I am a employee of the University of Alaska in Fairbanks. What the Board of Regents have said in recent times; "they are here to protect the students". Well bottom line they can not protect us or anyone else for that matter. Their lame policies only make it harder for the law abiding citizens to protect themselves and those around us to do so. They have set themselves up to supersede the Federal Constitution as well and the Alaska State Constitution.

You as law makers need to stop this from happening, I ask that you pass SB174 as it was originally written. For the reason as follows;

- 1) The Board of Regents have had a very long time to adopt or change or create any rules in the handling of guns or knives on campus and they have not done anything.
- 2) Students and Staff alike already carry knives to use in support of their daily duties; most are folders, some are sheath or long blades.
- 3) Students already carry guns as allowed by state and federal law in protection of themselves and others according to state law.
- 4) The law enforcement officers can not protect us if we have a active shooter on campus. They can only clean up the aftermath.
- 5) The ability of the Board of Regents or President can not protect us or anyone else. How can they say we will be protected; they can't protect themselves.
- 6) Since when does the Board of Regents have the power to undermine the United States Constitution and the Alaska Constitution or to supersede it; they do not.

All the Board of Regents have done is to give you a bone to chew on with their amendments; please do not fall for this ploy. Pass the original bill as written and give the power to protect ourselves back to the people.

Thank you for reading my letter and I hope you can see my side of things.

Paul Brown

Subject: Support for SB 174 Weapons on Campus

I support SB 174. I commend the Alaska Senate for protecting our rights provided by the U.S. and Alaska Constitutions. I strongly encourage the House Education Committee to do the same.

I am a disabled veteran having served in both the Gulf War and Afghanistan. I have seen first hand what happens when people are denied the right to defend themselves. I have sadly seen what happens here at home when the average law abiding citizen is unable to defend his friends, family and home. We, as Americans, are guaranteed this right. The Board of Regents do not have the right to overrule our Constitution and the law of the land.

Here is a quick summary of my thoughts as a UAF staff employee and a UAF alumni:

- 1) I agree that there are a few specific situations that carrying firearms would be inappropriate. Individuals should not bring firearms into the campus police department, during counseling situations, or into Title IX offices. These are specific situations, locations, and happen infrequently. These are reasonable compromises.
- 2) I do believe individuals living on campus have the same right to carry their firearm as those that chose to live off campus. It should also be the individual's responsibility to properly secure his or her firearm in the dorm room.
- 3) I do not believe that a concealed carry permit should be mandatory since this right is already provided by both constitutions.

Thank you for your support.
