To: Sen. Pete Kelly
Subject: Alaska Senate Finance Committee

Dear Senator Pete Kelly,

I am writing to ask the Senate Finance Committee to please support funding that is currently in the capital budget for the state's Home Energy Rebate and Weatherization Programs, the Renewable Energy Fund and the Emerging Technology Fund because it helps us create ways of being more sustainable and less reliant on oil! Clean energy is local and promotes energy security and independence.... all of which makes good sound sense!!!

Thank you,

Heather Johnson
Anchorage, Alaska
