This will allow support from private industry to support stock assessments. This is a new request for FY2018. It was not included in the FY2018 Governor's budget because the scope of the projects were still being identified.

MatSu Borough is providing \$116.0 for the Coho Salmon Genetic Stock Identification project. This project will estimate the total abundance of selected Coho salmon stocks by leveraging expiring projects estimation Coho salmon escapements. The MatSu salmon information inventory and gap analysis determined that the state of knowledge for stock abundance stock identification was only moderate for Coho salmon (available information was incomplete) so additional work was needed.

Pacific States Marine Fisheries Council is providing \$52.0 for the Northern Cook Inlet Chinook Marine Harvest Stock Composition project. This project is needed to gather information about stock-specific harvests of Chinook salmon in the Tyonek subsistence and northern district commercial mixed stock marine fisheries.

Pacific States Marine Fisheries Council is providing \$15.0 for the Eastside Set Net Chinook Genetic Stock Identification project. This project is needed to help better understand the trends and causes of declines in Chinook salmon abundance in the Kenal River.

FY2018 Governor: \$19,204.2
FY2018 Total Amendments: \$183.0
FY2018 Total: \$19,387.2
