The Department is pursuing an organizational review to ensure optimized delivery of its capital design program. This change amends the previous FY2018 Governor proposal.

In light of the State's fiscal realities The Department of Transportation and Public Facilities (DOT&PF) is pursuing organizational review to ensure optimized delivery of its capital program. The department will continue carefully managing capital program staffing while honoring collective bargaining agreements. Current staffing levels will not require additional outsourcing in FY2018. In addition, the department will conduct a feasibility study to determine whether savings and improved quality may be achieved. The study will be performed by an independent third party and will inform, FY2019, and future budgets. The end-state of organizational review will result in a DOT&PF team with the core competencies necessary to ensure all programs work meets current quality standards and federal regulatory requirements in the most efficient manner possible.

The Department is pursuing an organizational review to ensure optimized delivery of its capital design program. This change amends the previous FY2018 Governor proposal.

In light of the State's fiscal realities The Department of Transportation and Public Facilities (DOT&PF) is pursuing organizational review to ensure optimized delivery of its capital program. The department will continue carefully managing capital program staffing while honoring collective bargaining agreements. Current staffing levels will not require additional outsourcing in FY2018. In addition, the department will conduct a feasibility study to determine whether savings and improved quality may be achieved. The study will be performed by an independent third party and will inform, FY2019, and future budgets. The end-state of organizational review will result in a DOT&PF team with the core competencies necessary to ensure all programs work meets current quality standards and federal regulatory requirements in the most efficient manner possible.
