SUMMARY

With over nine years of experience supporting high tech IT in the Arctic, I am seeking an Information Technology administrative or support position in the Alaska where I can leverage my skills in virtualization to deliver best of class users experience..

EXPERIENCE

Virtualization Technology Consultant, Chiphead Consulting LLC
Kotzebue, AK — 2014 - Present

- **Maniilaq Association, Kotzebue AK.**
  - Troubleshoot, identify and assist in fixing failed patient information system migration/upgrade.
  - Migrate VMware View 4.6 deployment to 5.3 deployment and restore VDI deployment back to functioning system.
  - Identified unused services and VMs, decommissioned and reclaimed resources.
  - Provided technical expertise to the President and Interim CIO in IT planning and operations.
  - Provided day to day operations support for VMware server cluster, VDI cluster and EqualLogic SAN.

Unix Administrator, Maniilaq Association
Kotzebue, AK — 2007-2014

- Designed and implemented VMware View 5.2 infrastructure to support the first virtualized IHS Electronic Dental Record implementation.
- Virtualized the medical desktop for all medical record access.
- Developed secure remote access for authorized user access from any internet accessible location worldwide.
- Managed the virtual infrastructure that included 30+ virtual server and ,600 virtual desktops hosted on 8 physical server split into 2 virtual stacks.
- Implemented a secure offline certificate authority for issuing internal secure certificates and encrypted/digitally signed email.
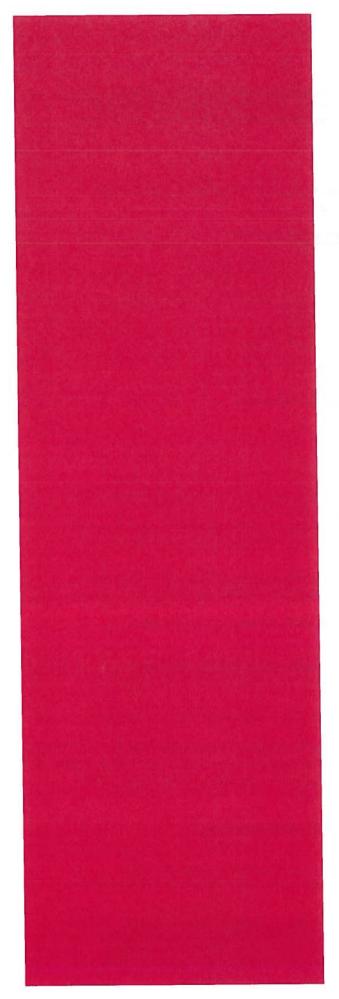

Data Specialist, Northwest Arctic Borough School District
Kotzebue , AK — 2005-2007

- Maintain the various databases used by the school district.
- Performed data analysis and reporting of the data contained in the data systems.
- Implemented and maintain the on-line Student Information System using ChancerySMS.
- Imported/exported data to and from the various state agencies.
- Virtualized several servers with VMWare connected to a SAN allowing fail-over, zero downtime maintenance and lowering the total cost of ownership for these systems.

Intra/Internet Technology Consultant/Developer
1993 — 2010

- **Northwest Arctic Borough School District, Kotzebue AK.**
  - Converted quarterly state test data so it could be imported into the student information system.

- **Corporate Web Site Redesign, Berger Funds, Denver Co.**
  - Evaluated and made recommendations for third-party development and redesign of the corporate web site.
  - Evaluated development companies, software and other technology to be used for the redesign.

- **Subsidiary Information DB, Sherwin-Williams, Cleveland Oh.**
  - Designed and developed a Oracle Database driven Java Application to maintain the companies 200+ subsidiary legal information.

- **Jobs Posting System, Sherwin-Williams, Cleveland Oh.**
  - Designed and developed an online system for creating and maintaining available positions in the company from job posting creation to placement. Technology used, Oracle, PHP, HTML, Java.

- **Web Dev Infrastructure, Sherwin-Williams, Cleveland Oh.**
  - Designed development infrastructure for corporate IS department of 20 Java developers. Integrated BEA Websphere and Oracle database into a dynamic development platform that addressed individual workspace for developers.

- **On-line Reserves System, Loyola University Library, Chicago, Il**
  - Designed and developed an online catalog system with full text search capabilities. Library staff could scan reserve material into the system catalog it and placed it on-line for easy student access. Used Postgres(now called PostgreSQL) as a database back end and PHP/HTML interface for both entering data to the database and end user access.

- **Detailed 800 Call Billing System, BN1 Telecomm Inc. Akron, Oh**
  - Designed and developed a system to offload call data from the telephone switch, send it to the AS400 for billing and to a Postgres database on a Linux system. Detailed bills were produced for each 800 client using LaTeX and Perl. The bill in postscript form could then be printed and mailed to the client.

Cleveland-Marshall College of Law Library: Network Admin.
Cleveland, OH 1992 — 1997

- Managed the day to day operations of the library's network and computing resources consisting of several Unix and Windows servers, a PC lab of 30 computers. and forty faculty/staff desktop PCs
- Designed the network facility, data center, computer labs and staff computer resources for the new library built in 1996.
- Technology liaison with other the departments on campus and statewide projects.
- Supervised one full time assistant and three student assistants.
- Conducted workshops for incoming law students on the use of technology in the library.
