Agency: <u>Division of Administrative Services, DCCED</u>	

FISCAL NOTE ANALYSIS

STATE OF ALASKA
2017 LEGISLATIVE SESSION

BILL NO. HB 43

Analysis

HB 43 prohibits disciplinary action being taken against physicians by the State Medical Board for prescribing, dispensing, or administering an investigational drug, biological product, or device to terminally ill patients that have considered all other treatment options approved by the U.S. Food and Drug Administration and are ineligible or unable to participate in a current clinical trial.

This legislation establishes immunity for physicians, manufacturers, and distributors in the case of injury or death of a terminally ill patient from the use or nonuse of an investigational drug, biological product, or device, provided that informed consent was obtained from the patient and notice of immunity was given in advance.

HB 43 amends the statute limiting the sale and distribution of new drugs so it does not apply to physicians prescribing or administering investigational drugs under the conditions established in Section 1 of the bill. Additionally, this legislation prohibits requiring licensed entities subject to AS 47.32.030 to increase services for the sole purpose of accommodating a physician's practice of prescribing, dispensing, or administering an investigational drug, biological product, or device, or providing related treatment to a patient.

The Division of Corporations, Business and Professional Licensing does not anticipate fiscal impact from this legislation.
