Laura Cramer
Staff of Senator MacKinnon

Ms. Cramer:

I have been told that you are the contact person for Senator MacKinnon. I am writing this letter on behalf of Uyak Natives Inc. and its Shareholders.

Uyak Natives Inc. has successfully negotiated a contract to sell Uyak Natives Inc. Thorsheim property more specifically known as Plat 2006-7 Kodiak Island Borough.

This negotiation has taken Uyak Natives Inc. a lot of time, effort and money on Lawyers, accountants and a Special Shareholder Meeting to vote on the sale that was held in Kodiak in December, 2016. At this Special Shareholder Meeting the sale of Plat 2006-7 on Afognak Island "Thorsheim Drainage Property" was approved by over 88% of the outstanding shares of Uyak Natives Inc. Stock.

Uyak Natives Inc. is an Alaskan Native Village Corporation. Known as one of the "Unlisteds" because we did not receive our share of land as per ANSCA from what I was told. I was too young to know the details but in the end we did not get much land to work with to make a profitable Corporation out of. Uyak Natives Inc. Shareholders were definitely at a disadvantage to all other Alaska Native Village Corporation Shareholders except the other "Unlisted Villages" As such the importance of this land sale cannot be understated to Uyak Natives Inc. and its Shareholders. This money will help allot with our future as a viable Corporation.

Please note, the young people have a very hard time trying to make a life strictly on subsistence these days so they all move to where the jobs are and where there is a chance for work that pays money. Not sure if it is better than the old ways for the younger generations but "it is what it is".

For these reasons Uyak Natives Inc. and its Shareholders do humbly request that you approve the funding for the EVOSTC Thorsheim purchase of plat 2006-7 on Afognak Island.

Also, currently this is pristine forest lands, if this sale is not approved the Timber will be Harvested as per the Timber Sales Contract with Trans-Pac soon. This is the last chance to conserve these trees and surrounding areas including a sockeye salmon stream, deer, Elk and numerous species of birds.

Please support the purchase of Plat 2006-7 the Thorsheim Drainage Property owned by Uyak Natives Inc. an Alaskan Native Village Corporation. This sale was approved by over 88% of the outstanding shares of the Corporation.

Sincerely,

Gabriel W. McKilly

President / CEO

Uyak Natives Inc.
