Subject: Please vote YES on HB 103

- Optometrists provide the majority of eye care in Alaska.
- Optometry should have board autonomy as the other health professions.
- HB 103 allows optometrists to practice at the level of their education and training, nothing more.

Subject: Please support HB103

Dear Alaska State Senators;

Please support HB 103! My husband has been serving public in Alaska for 9 years, and is the owner of Northern Lights Eye Care. During this time he has been able to help thousands of Alaskans to have better vision and with their eye health needs. HB103 will help the public in the following ways:

- *HB103 will help the public save money and time, as it will give easier access to new treatments and technologies as they become available

- *Optometrists are not trying to do surgeries they are not trained to do; they just want to be trusted the way other medical professions are trusted.

Thanks for your support!

Sincerely,

Andrea Huff

Subject: Please Vote YES on HB 103

Hello,

I would like your support on HB 103 because HB 103 updates the very old Alaska optometry law, and optometry should have board autonomy as the other health professions do.

Thank you,
Michelle Cuddihy

Subject: Please Support HB 103

Dear Senators,

Please support HB 103. Optometry should have the same board autonomy as the other health care professions in Alaska. HB 103 updates the very old optometry statute.

Thank you for your consideration!

Respectfully,

Lynn J. Coon

Subject: In support of HBO 103

HBO q03 does not do what opponents say it does,it only allows optometrists to practice at the level of their education and training,nothing more.

Optometrists have 8 years of university plus 1-2 years of optional residency.

Optometrists provide the majority of eye care in Alaska. With so many small towns and villages they are the only ones there.

Thank you for voting YES on HBO 103

Subject: Please vote YES on HB 103

HB 103 is a no brainer, and I want to urge every one of you to vote yes on it.

- Optometry should have board autonomy as the other health professions.
- HB 103 allows optometrists to practice at the level of their education and training, nothing more.
- The opposition is running an absurdly misinformed smear campaign

VOTE YES

Subject: Please vote YES on HB 103

Please vote yes on HB 103. Optometrists should be allowed to do the work set out by the Optometric Board just like other professionally trained health-care providers. This bill allows optometrists to practice at the level of their education and training, nothing more. Please do not be swayed by the negative campaign by the opposition.
