20% Administrative Fee

State charges admin fee equal to 20% of non-federal share, or \$60 in example above. So the Provider sends \$300 + 60 to Department and the Feds match the \$360. The Department cannot send the full \$720 back to the Provider, because under 47.07.085 (b) in HB 176, the Provider cannot receive reimbursements for more than the total cost of transport (\$1000). Since $\$720 + \$400 = \$1120$, the state must keep \$120 and only send \$600 as supplemental reimbursement back to the Provider.
