FISCAL NOTE ANALYSIS

STATE OF ALASKA
2018 LEGISLATIVE SESSION**Analysis**

HB 259 proposes to increase the penalties on repeat offenders of cargo securement violations. Section 2 of the proposal allows materials to be uncovered as long as at least six inches of freeboard is maintained around the entire perimeter of the load. This is congruent with the Department's current practice. The new subsection (c) (1), (2) and (3) being added to AS 28.35.251 in section 2 of the proposal establishes exceptions that are relevant to the Department's maintenance and operations activities. As currently written, this proposal has no operational or fiscal impacts on the Department.
