			Source				
1	Administration &	Increase Funding	\$100.0	The legislature increased funding for the Wetlands Mitigation Bank by \$100.0 as	No	What is the status of this	The Office of Project Management & Permitting (OPMP) continues to advance efforts to establish
	Support	for Development	UGF	a one-time item, bringing the total for this program to \$300.0 UGF.		program? What is the one-	a statewide DNR sponsored In-Lieu Fee program (ILFP). OPMP submitted its initial draft
	Services/Office of	of Wetlands				time funding being used	instrument (application) to the US Army Corps of Engineers (USACE) in the 1st quarter of 2016
	Project	Mitigation Bank				for?	and is submitting a revised application in January of 2017. The 100.0 one time increment was used
	Management &						for contractual support on data and imagery collection, necessary for full application development.
	Permitting						USACE approval will allow DNR to administer and manage State lands as a mitigation option for
							developers to offset impacts as required by the Clean Water Act and the USACE's 404 program.
							OPMP is maintaining robust outreach efforts among the mitigation community including state and
							federal agencies, mitigation bank sponsors, native corporations, municipalities, and other interested
							parties.
