Dear Senator Birch:

I am writing to recommend that you confirm Jason Brune as Commissioner of DEC. I have known Jason Brune for many years as a private citizen, consultant, and when I was Director of the Alaska Division of Mining, Land and Water. I know that his heart is in Alaska, and his energy is off-the-charts (i.e., he's a hard worker). He has friends and acquaintances on all sides of many issues and is willing to work with all — people who agree with him and people who don't. I think he will be an excellent Commissioner who will work for all Alaskans.
