Subject: Jason Brune

Dear Senator Birch,

Having been born in Alaska in 1958, I am a lifelong user of subsistence resources and I have family who have fished Bristol Bay. I am greatly concerned about Jason Brune being nominated for the job of Commissioner for the Department of Environmental Conservation. His statement of support for the Pebble Mine project indicates that he would come to the job of commissioner with prejudices in favor of resource extraction. Please do not support this nomination.

Thank you,

Anne Kahn
