Employment History

Valhalla Construction Service and Supply, LLC

Partner / Contract Manager - Current

40+ hours a week

Partner: John Reid

Contact Number: (502) 545-8560

Business start-up operations (2017). Bid preparation, proposal writing, bookkeeping and accounting. Responsible for contract management upon contract executions, including state and federal requirement compliance.

Wolverine Supply, Inc.

Contract Specialist – Jan 2007 – August 2017

Management of projects from the bid phase through hand-off to the project management team, including all preliminary matters such as initial contract submittals required for Notice to Proceed. Projects have included the traditional design-bid-build delivery method, design-build, design-assist deliveries, as well as GC/GMP (guaranteed maximum price) execution approaches. Client experience includes the federal and state governments, private industries, local borough and municipal governments, public and indian housing authorizes and other publicly funded procurement vendors. Provided for extensive contractual requirements including EEO, Affirmative Action, DBE, MBE, VET-100, CFR's, FAR's, DFAR's, labor requirements, safety requirements, and various other special contract requirements.

Saddlebrook Water Systems, LLC

Owner / Operator – March 2003 – August 2017

4-8 hours a week

Owned and operated (part time only required) of public water systems to maintain Alaska DEC and EPA compliance. Provided water system consulting per consulting contracts for various water system owners, real estate developers and contractors. Company has been sold (currently under contract for purchase agreement) as of September 2017.

Bru-Nette, LLC

Land and Property Management – August 2003 – June 2005

Provided oversight and management of subdivision developments, including local regulatory agency permitting and approvals, utility company contracting, platting and surveying, land clearing, road construction contracting, and real estate transactions.

V-Corporation

Operations Manager – June 2000 – August 2003

40+ hours a week

Operations management of a hazardous material abatement company. Managed all bookkeeping, bid preparation, prime contractor interfacing, contract requirement compliance, personnel management, regulatory requirements and overall project management of numerous asbestos and lead abatement projects.
