Subject: Opposed to confirmation of Jason Brune for DEC Commissioner

Dear Senators,

I am writing to ask you to oppose the confirmation of Jason Brune for Commissioner of the Department of Environmental Conservation (DEC). The citizens of the State of Alaska need the leader of DEC to make science-based decisions. Mr. Brune's prior work advocating the development of Pebble Mine would not allow him to make impartial natural resource development decisions on the behalf of Alaskans.

Thank you for your opposition. We can do better for the State.

MARINA LINDSEY
