Approved By: <u>Brad Ewing, ASD</u>	Date: <u>01/25/19</u>
Agency: <u>Office of Management and Budget</u>	

## FISCAL NOTE ANALYSIS

STATE OF ALASKA  
2019 LEGISLATIVE SESSION

BILL NO. SB 22

### Analysis

#### **Background Tax Division**

This bill provides for a common property shellfish fishery classification in a special harvest area, and fisherman participating in this fishery would be subject to the payment of an assessment either on the projected value of the shellfish or on the pounds of shellfish harvested.

Cost recovery, when implemented under the common property fishery, imposes an assessment on all commercial fishermen participating in the common property fishery. The assessment is to be collected by the Department of Revenue Tax Division (DOR) and deposited into the general fund for appropriation back to the hatchery permit holder.

The fishery would be subject to current common property statutes. AS 16.10.455(d) provides that DOR may, by March 1 of each year, set the assessment rate by regulation and in consultation with the Department of Commerce, Community, and Economic Development, the permit holder, and affected commercial fishermen. Statute directs that the assessment shall cover debt service, operating expenses, and a reserve fund.

In accordance with statute it is anticipated that in setting a common property fishery assessment DOR will annually:

Analyze financial data to establish or verify historical operating costs;  
Review forecasted hatchery returns (pounds) and price information for the upcoming season from various sources to determine market trends;  
Promulgate annual regulations for the assessment; and  
Provide for filing instructions, filing, and payment of the Common Property Fishery through revenue on-line.

#### **Revenue/Expenditure Impact**

Previously DOR has established a common property fishery assessment for one fishery in the years 2012 – 2016. Based on the projection by the Department of Fish and Game of 2 -3 applications per year, revenue impact is expected to be minimal.

Expenditures to set assessments will include staff time, Department of Law review for annual regulations, revenue on-line maintenance for the common property reporting, and other miscellaneous costs when applicable. These costs will be absorbed by the Tax Division.

#### **Implementation Cost**

This legislation would require the Department of Revenue to update its Tax Revenue Management System (TRMS) and Revenue Online (ROL) which allows a taxpayer to file a return online. The update would consist of reprogramming both systems, updating the return rules in TRMS and testing both systems thoroughly to verify that they function as expected. We would also need to update the current tax return forms. The supplemental fiscal note figure of \$50.0 in FY19 is to cover the costs of having our contractor update the two systems.
