Subject: SJR #7

I would like to express my support for oil and gas leasing in the ANWR 1002 area. Alaskans and the Alaska Legislature have stood together for the last 38 years in support of opening ANWR. Our fight with the Federal Government, not only on the ANWR issue, but many other issues has always brought Alaskans together. It is a shame that we cannot come together again in support of this lifelong quest, now that we have federal support and approval. I encourage all members of the House to remember how united Alaska needs to be on Federal issues and pass SJR#7 in support of ANWR Leasing.

Thank you,

Bob Stinson
Sr. Vice President, Alaska
Price Gregory International, Inc.
