Re: Letter of Support for the Road Belt Electrical Transmission Line Development and  
Proposed Project Reconnaissance, Feasibility and Implementation

This is a letter in support of the Alaska Road Belt Electrical Transmission Line proposed project investigation, being submitted to the State and Federal Government for feasibility, impact, and funding. The project would create High Voltage lines from Sutton to Glennallen to Delta Junction; with sub-transmission lines extending from Gakona to Tok/ Upper Tanana Region and Delta Junction to Tok/ Upper Tanana Region.

We are in support of this Infrastructure Development for Energy and National Security, Economic Development, and Natural Resource Development in the State of Alaska.

As you are well aware of the infrastructure development and the increase in population at Eielson Airforce Base with the advent of F-35 to the region, the need for power in the region will increase significantly. This is a project long overdue for Alaska and ask for your support for this project.

Senator Click Bishop

Representative Dave Talerico

Two handwritten signatures in blue ink. The top signature is "Dave Talerico" and the bottom signature is "Click Bishop".
