**Subject:** SB51

Dear Senator,

I am writing to state my opposition to SB 51. Passage of this bill would gut the rights of Alaskans to protect critical waters while making it easier for corporations to pollute them. Here in Wrangell, we are already deeply concerned about Canadian mines up the Stikine and their threat to our clean waters. Please don't add to the dangers to our fish and people by making onerous requirements on those who want to protect the waters that belong to all Alaskans.
