**Subject:** SB - 51

Dear Senator Birch,

As your Senate Resources Committee considers passage of recently introduced SB - 51, which as written would make it extremely difficult to protect Alaskan waterways from pollutant discharges, please use your leadership position on this committee to obtain fair legislation to accomplish the environmental goals of the Clean Water Act. Also, I would encourage you to make sure the protective aspects of this legislation are based on the results of studies carried out by government and academic scientific departments.

Thank you,

Joel Hubbard
