**Subject:** Support hb-35

Dear Representative Stutes,

I support HB 35- Conflict of Interest bill. This bill will greatly improve the process of the Board of Fisheries by allowing board members with particular knowledge and experience in their region and/or fishery to fully participate in deliberations, lending their expertise on the subject. This will make for a more transparent process and also may encourage more individuals to put their name forth to become a board member

Thank you,

Joe Rosenkranz

**Subject:** HB 35- B.O.F. Conflict of Interest bill.

I support HB 35- Conflict of Interest bill. We should have as many voices as possible heard during Board of Fish deliberations- especially people with knowledge and experience, as long as members with conflicts can't vote.

Hi Matt,

I wanted to let you know that I strongly support HB35 and a big thanks to Representative Stutes for championing this bill. I believe sound fishery management decisions are made through use of all available information. A BoF members with experience in a fishery or region will have important information to share and the process should encourage, not preclude, such knowledge.

I am writing this as an independent, community based fisherman from Kodiak.

Thanks Matt!

Theresa

I strongly support HB 35. It is really important to find people who are willing to serve on the Board of Fish. If a person is able to participate in the deliberations, and not vote due to a conflict of interest, they will at least feel like their time on the Board is well spent.

Thank you

Dear Representative Stutes,

I am writing you in support of HB 35. I have been an active participant in BoF and also served several years on the Sitka AC. I believe that the current interpretation of the EBEA undermines the BoF process by both prohibiting those with the most knowledge and expertise of BoF issues from actively and meaningfully contributing to strengthening Alaska's fisheries laws and policies and by also discouraging well qualified applicants from submitting their names for consideration to serve on the BoF. Additionally, because of its size, the BoF roster of a seven member makeup is especially vulnerable to lacking in informed and insightful discussions if even one member is recused.

As our fisheries laws become more complicated and with increased pressure on our resources, its more important than ever to allow BoF members to fully participate in the issues they are the most literate in.

Thank you for this opportunity to comment.  
Sincerely,

Jeff Farvour, Sitka AK

I support HB 35 - Conflict of Interest Bill. This bill will greatly benefit the Board of Fish process by allowing a person with knowledge in the area to participate and articulate that knowledge to other board members during deliberations so the most informed decisions can be made.

Thank you,  
David Martin

Dear Representative Stutes,

I support HB 35. Board of Fish members should be allowed to deliberate and lend their expertise in matters that they are most familiar with. This is a needed change to the board process. Not only will the board make more informed decisions, but the board will also attract many more qualified individuals who otherwise would not be able to participate in many issues due to their involvement in state fisheries. The North Pacific Fisheries Management Council allows members to participate in deliberations and even vote in many instances. Thank you for providing leadership on this important fishery issue to the State of Alaska.

Sincerely,

Buck Laukitis  
Homer, AK
