Please do not vote for HB 82. We have enough protected classes. Discrimination is not allowed as is.

I urge you to vote NO on HB 82. Sexual Orientation and Gender Identity laws trample fundamental liberties and unnecessarily impinge individuals' rights to live in ways consistent with their values.

Sexual Orientation and Gender Identity laws are not about protecting the freedom of people to live as LGBT, but about coercing everyone else to support, facilitate, and endorse such actions. This is one fundamental problem in equating coercive anti-discrimination laws with permissive religious freedom laws. And imposing a bad coercive policy on everyone while exempting select faith-based institutions is anything but fairness for all.

Thank you for your time.

Sincerely,
Erin McIntyre
