Snowmobiling is one of Alaska's fastest growing outdoor activities and a very important transportation resource for rural communities. There is a growing demand to develop and maintain trails and trailheads to provide for safe riding opportunities and transportation routes, and to educate riders about safe riding practices. Funds for this program are provided by snowmobile registration fees paid by Alaskans, and are distributed in the form of grants for trail development and maintenance, trail marking and signing, and safety education.

**Project Description/Justification:**

This project provides grants for a highly popular and successful program for non-profit organizations, businesses, agencies, and local governments to groom snowmobile trails, development and maintenance of trails and trail-related facilities, and provide for snowmobile safety and education programs statewide.

Funds for this program are derived from snowmobile registration receipts paid by Alaskans annually. The Department of Administration, Division of Motor Vehicles collects receipts from snow machine registrations (\$200,000 to \$250,000 annually) and transfers these funds to the Division of Parks and Outdoor Recreation. While there is no statutory mandate requiring these funds be used for this purpose, it is an excellent example of user pay/user benefit.

In FY2017, the Division of Parks and Outdoor Recreation awarded funds to the following 17 organizations for snowmobile trail grooming grants, and to one organization for a safety and signage project:
