Date: 03/18/2019
Date: 03/20/19

FISCAL NOTE ANALYSIS

STATE OF ALASKA
2018 LEGISLATIVE SESSION

BILL NO. SB 83

Analysis

SB 83 retains AS 42.05.840, the statute allowing the RCA to establish a universal service fund to be used to ensure the provision of long distance service at reasonable rates throughout Alaska and to otherwise preserve universal service. The RCA will continue to have oversight responsibility for the Alaska Universal Service Fund.

Among the retained statutes governing telecommunications service is AS 42.04.100, requiring the RCA to establish a Communications Carrier Section to develop, administer, and recommend policies and programs related to communications in the state involving wire, cable, radio, and space satellites.

Under the current version of SB 83, the Regulatory Cost Charge (RCC) - which funds the agency's annual operating budget - as applied to telecommunications industry sectors will be broadened to include any otherwise economically deregulated public utility that would otherwise be exempted from paying RCCs. The effect of this change will likely spread the costs of retained telecommunications regulatory functions under SB 83 over a greater number of customers, and thus would likely be more equitable than the current situation.

The RCA expects to implement the provisions of this legislation with existing resources.
